### DHRUV BHAGAT

#### STEPS 1 TO 5

#### 1

### DHRUV BHAGAT

1. Dharuv Bhagat had attained 'eternal attainment' by Sadna in early days of his childhood.
2. He had sadhana by constrating upon Sun as source of existence phenomenon.
3. He followed the path of sadhana by continuously reciting twelve syllables transcendental mantra.
4. The twelve syllable transcendental mantra which helped him attained eternity is '(ओम नमोः भगवते वासुदेवाय) Om Namoh Bhagwate Vasudevaeye'.
5. The attainment of Dhurav Bhagat is of the order of eternity of Dhruv Tara/ Pole Star.
6. It is the attainment of Dhurav Bhagat which has

even blessed Dhurav Tara with bestowing of the name of Dhurav to 'Dhurav Tara'.

7. One shall sit comfortably and permit the transcending mind to glimpse the phenomenon of attainment of eternity by Dhurav Bhagat.
8. It would be blissful to imbibe the values of Bhagati / devotion of 'Dhurav'.
9. This attainment of Dhurav Bhagat is of the range from Sun to Pole star.
10. It is the attainment of transition from 6 space to 7 space.

## 2

### ON THE PATH OF SADHNA

1. For imbibing the Sun light basis of knowledge one shall be on the path of sadhana followed by Dhurav Bhagat.
2. This is the path of twelve components transcendental boundary of hyper cube 6 as representative regular body of 6 space within creator space (4 space).
3. It is the path of Dwadash Adityas (12 sun).
4. One shall sit comfortably and permit the transcending mind to imbibe the values of richo akshre mantra as that transcendental worlds are vibrant within akshras (syllables) of hymns of mantra.
5. It would be blissful to chase 12 syllables of '(ओम नमोः भगवते वासुदेवायः) Om Namoh Bhagwate Vasudevaeye' mantra as 12 components of the transcendental boundary of Vishnu lok / Sun / 6

6. One shall sit comfortably and sequentially chase the composition of this mantra.
7. It is a composition of four padas/words.

3. Each syllable of the Dharuv mantra is to be followed as transcendental mantra.
4. Each transcendental component is to be followed as Adityas (SUN).
5. The four padas of Dharuv mantra of four mouth of Lord Brahma, creator the supreme.
6. Four padas of Dharuv mantra together are four dimensions of 4 space.
7. The first pada (Om) of Dharuv mantra is the first mouth of Brahma / first dimension of 4 space.

9. First three padas (Om Namoh Bhagwate) are the three mouths / three dimensions.

10. All the four padas together of creator (4 space) as measure of the measuring rod of Vishnu lok / 6 space.

#### 4

### ETERNAL ATTAINMENT

1. The eternal attainment of Dharuv with recitation of twelve syllables mantra is of the order and value of the unity state of 7 space.
2. This being the attainment of the transcendental boundary of twelve components of the self referral Vishnu lok (6 space), and it being of the order and value of unity state (7 space) as such it is of the order and value of transcendental range (3, 4, 5, 6, 7).
3. This transcendental range (3, 4, 5, 6, 7) is of the order and value of  $3+4+5+6+7=25$  sankhya elements.
4. It is of the order and values of  $25=5 \times 5$ , matrix format of Varga consonants of Devnagri Varanmala.
5. It, as such manifests four fold manifestation layers of 26 Vishnu lok elements as (5, 6, 7, 8).
6. One shall sit comfortably and permit the transcending mind to chase this manifestation process of the transcendental range (3, 4, 5, 6, 7) as (5, 6, 7, 8).
7. One shall sit comfortably and permit the transcending mind to chase this manifestation process of the transcendental range (3, 4, 5, 6, 7) as (5, 6, 7, 8).
8. It is the phenomenon of (5, 6, 7, 8) / (5 space, 6

space, 7 space, 8 space) of hyper cube 7 having its transcendental dimension as transcendental range (3, 4, 5, 6, 7) / (3 space, 4 space, 5 space, 6 space, 7 space).

9. It is of the format of manifestation layer (N, N+1, N+2, N+3) with a transcendental range of value 5 n with sequential steps (n-2, n-1, n, n, n+1, n+2).
10. It is like the origin fold permitting transcendence over the step by step sequential order to a pair of steps flow through the dimension fold, because of which the transcendence range gets two steps prior to 5 space as dimension fold and this range ending at the domain fold of the manifestation layer i.e. at 7 space.

## 5

### POLE STAR

1. Pole star is origin fold of the solar universe.
2. It is of 7 space format with Sun as 6 space format.
3. Being of 7 space format, as such its format imbibes all the values of artifice 7.
4. One shall sit comfortably and permit the transcending mind to glimpse the values of artifice 7 to imbibe the values of the format of pole star.
5. Artifice 7 is of the values of the biggest prime of the numerals range of ten place value system.
6. There are precisely 7 geometries of 3 space.
7. Hyper cubes 1 to 7 increase while hyper cube 8 onwards start decreasing.
8. Rainbow as visible spectrum through human eye balls is of seven colours range.

9. All the eight corners of the cube accept sequential coordination through seven edges.
10. 5 space in the role of dimension of 7 space makes  $7 \times 5=35$  as value of dimensional frame of 7 space and it is the value of NVF (EYE)=35.

## **TWELVE SYLLABLES MANTRA**

### **STEPS 6 TO 10**

#### **6**

(ओम नमोः भगवते वासुदेवायः) **OM NAMOH BHAGWATE  
VASUDEVAEYE**

1. To imbibe the values of Dharuv mantra, one shall sit comfortably and recite this mantra to create the transcendental field for the mind to transcend and to glimpse the values of this mantra.
2. The four padas (words) of this mantra are of the value of four dimension of the creator space (4 space).
3. These four padas as creator space, are of the values of measure of the measuring rod of Vishnu lok / 6 space.
4. These values sequential order is as are the syllables of these padas, i.e., the quadruple (1, 2, 4, 5).
5. One shall sit comfortably and the permit the transcending mind to glimpse through the sequential order of the values of this quadruple (1, 2, 4, 5).
6. The creator space being a spatial order space with

to it, the quadruple (1, 2, 4, 5) shall be accepting reorganization as  $2^0$ ,  $2^1$ ,  $2^2$ ,  $(2^1+2^0+2^1)$ .

7. One shall sequentially chase the values of the reorganized quadruple  $2^0$ ,  $2^1$ ,  $2^2$ ,  $(2^1+2^0+2^1)$ , with focus upon the index value quadruple (0, 1, 2, 1+0+1).
8. Here it would be relevant to note that the three steps value 0, 1 and 2, ahead as a linear order would have taken us to the values '3' but here, because of the spatial order, the value here is '1+0+1'.
9. One may have a pause here and permit the transcending mind to transcend from the linear order monad to the spatial order di-monad.
10. It would be like a transition from unity interval to two units interval, which shall be having a zero value joint for the two units.

## 7

### (ओम्) OM

1. Ancient wisdom enlightens as that Om iti '*ek akshar braham*' ओम् इति अक्षर ब्रह्म
2. 'Om' is sole syllable.
3. Om as Braham is the sole source elements.
4. Om as Braham, sole syllable, sequentially unfolds from its within. In this sequential unfolding process, sole Braham source element expresses as a Bindu Sarovar, the first component of Om formulation.
5. At a second step of unfolding process, it folds ahead of the Bindu Sarovar as Bindu Sarvar sustained

by Ardhmatra, the second component of Om formulation.

6. This phase and stage of unfolding process, as such is a phase and stage of pair of components of Om formulation, namely Bindu Sarovar and Ardmatra.
7. The ancient wisdom enlightens us that from the Bindu Sarovar is fountained Divya Ganga of seven streams.
8. This is the phase and stage of Bindu Sarovar transiting and transforming as Golok / orb of the Sun domain.
9. This as such, as a third sequential unfolding step, manifests third component of Om formulation, designated and known as Tripundam, and also as the manifestation layer (3, 4, 5, 6).
10. A step ahead is the phase and stage of Swastik pada, the fourth component of Om formulation, which sets into intiation a churning process and thereby there emerges a transcendental phenomenon of emergence of transcendental worlds, of their own from within the sole syllable Braham and this way there being the sequential range of five elements range which manifests format for Panch Mahabhut, as well as for five fold sensory domain, the actions fields of senses, the knowledge and their base and the ultimate attainment of 25 Sankhiya elements.

## 8

### (ॐ नमोः) **OM NAMOH**

1. The transition and transformation of sequential

phase and stage of folding, becomes expression of the pair of artifices (1, 2).

2. This expression format of pair of artifices (1, 2) / (Bindu Sarovar, Ardhmatra) provide a values format for (ॐ नमोः) Om Namoh.
3. The phase and stage (1, 2) / (Bindu Sarovar, Ardhmatra / ॐ नमोः Om Namoh) is of values of order / sole syllable Om, and two syllables formulation Namoh.
4. Here it would be relevant to note that while the sole syllable Om as Bindu Sarovar phase and stage of unfolding and Ardhmatra is the Parnava phase and stage of unfolding.
5. As such, One shall sit comfortably and permit the transcending mind to remain in deep trans to chase the pair of unfolding processes of sole Braham as Om and as Parnava.
6. Further It would be relevant to note that the pair of artifices (1, 2) sum up  $1+2=3$ , and as such it amounts to a transition and transformation and the second phase and stage of unfolding as of the order and values of artifices 3, which would be parallel to the third vowel.
7. Still further It would be relevant to note that it would be the process of (monad, monad)=trimonad;
8. This also would be parallel to the mathematics of pair of linear dimensions (1, 1) synthesizing  $1+1-(-1)=3$  / 3 space domain.
9. Still further It would be relevant to note that the letter (ॠ) is the last fifth letter of fourth row of

Varga consonants and letter (म्) is the last fifth letter of the fifth row of varga consonants.

10. One shall sit comfortably and permit the transcending mind to in prolonged trans to glimpse and imbibe the values and order of first phase and stage of unfolding of sole Braham as Om and further as second phase and stage of unfolding as Om Namoh.

## 9

### (ॐ नमोः भगवते) OM NAMOH BHAGWATE

1. The formulation (ॐ नमोः भगवते) Om Namoh Bhagwate is of the values and order of Om (ॐ) as 1 syllable, Namoh (ॐ) as 2 syllable and Bhagwate (भगवते) as four syllables.
2. The triple (1, 2, 4) accepts re-organisation as ( $2^0$ ,  $2^1$ ,  $2^2$ ).
3. The sequential values and order of the triple (1, 2, 4) / ( $2^0$ ,  $2^1$ ,  $2^2$ ) deserves to be chased in comparison to the values and orders of the triple (1, 2, 3) / (1, 1+1, 1+1+1).
4. While the triple (1, 2, 3) / (1, 1+1, 1+1+1) is of the sequential order of the rule of the of Sutra Ekadhiken Purvena at the base, on the other hand the application, the triple (1, 2, 4) / ( $2^0$ ,  $2^1$ ,  $2^2$ ) is of the sequential order of the rule of Ekadhikena Purvena at the index.
5. It would be relevant to note that  $1+2+4=7$ , which is the phase and stage of sequential flow of 7 streams from the Bindu Saravar, being the third phase and stage of unfolding from within the Bindu Sarovar.

6. It would further be relevant to note that Om at third phase and stage of unfolding is of the values and order of 'Aum'.
7. Still further in the context of the values and order of this phase, the first three components (v] m] e~) integrate and become the 4<sup>th</sup> component Aum.
8. As such the index values (1, 2, 4), at the next step would be of the value '5', i.e. a step ahead of '4'.
9. This would help us reach at the final phase and stage of the Dhurav mantra (ॐ नमोः भगवते वासदेवायः)  
**Om Namoh Bhagwate Vasudevaeeye,**
10. With (वासदेवायः) being a formulation of five syllables.

## 10

(ॐ नमोः भगवते वासदेवायः)

### OM NAMOH BHAGWATE VASUDEVAEYE

6. 12 Adityas (Suns).
7. There are 12 Rashis.
8. There are 12 hours in india, and
9. There are 12 hours of a night.
10. One shall sit comfortably and permit the transcending mind to glimpse and imbibe the

values and order of artifice 12 being of the order and value of Dharuv mantra.

## TRANSCENDENTAL BOUNDARY

### STEPS 11 TO 15

#### 11

## TRANSCENDENTAL BOUNDARY

1. The transcendental boundary ((5 space ॐ) of self referral space (6 space ॐ)) is of 12 components parallel to 12 months of a year.
2. The values and order of 12 components of transcendental boundary are parallel to values and order of 12 names of Lord Ganesha ॐ.
3. Twelve transcendental names of Lord Ganesha ॐ are Sumukha, Ek-danta, Kapila, Gajkarna, Lambodra, Vikate, Vighan nashna, Vinayaka, Dhurmketu, Ganadhiksha and Gajananna.
4. The values and order of twelve transcendental component of transcendental boundary are parallel to values and order of 12 syllables of Dharuv mantra (ओम नमोः भगवते वासुदेवायः) Om Namoh Bhagwate Vasudevaeye').
5. These values and order are the values of the Dwadash Adityas (12 Suns).
6. Within each of the transcendental component of the transcendental boundary, a transcendence takes place which its upper half / northern upper half, and simultaneously it also permits ascendance from (1 space F) to (3 space □) to (5

7. Further, at the middle center / origin source there being a self referral seat (6 space  $\rightarrow\leftarrow$ ) of hyper dimensional / creative order (4 space  $\boxplus$ ) and as the origin of creative dimension there being a transcendental seat, as such there emerges a transcendental flow within each of the six dimensions of (6 space  $\rightarrow\leftarrow$ ).
8. One shall sit comfortably and permit the transcending mind to remain in prolonged deep trans to be face to face with the simultaneous play of Trimurti [(4 space B), (5 space  $\mathfrak{F}$ ) and (6 space  $\rightarrow\leftarrow$ )] .
9. This as such brings into operation the values and order of 4 space mathematics, 5 space mathematics and 6 space mathematics.
10. It would be relevant to note that the values of sequential order (1, 1, — ), (1, 2, 3, —), (1, 2, 4,— ) and manifestation layer format (1, 2, 3, 4), transcendence range format (1, 2, 3, 4, 5) and self referral base (1, 2, 3, 4, 5, 6).

## 12

### द्वादस अदितीय् **DWADASH ADITYAS**

1. Sun, as (6 space  $\rightarrow\leftarrow$ ) body with (4 space  $\boxplus$ ) in the role of dimension gives values and order for the dimensional frame as of value  $6 \times 4 = 24$  which is parallel to 24 hours of the day.
2. (6 space  $\rightarrow\leftarrow$ ) with (5 space  $\mathfrak{F}$ ) in the role of boundary is of the values  $6 \times 5 = 30$  parallel to 30 days of the month.
3. Hyper cube 6 as representative regular body of (6

space (↗↖) accepts 12 components boundary, which is parallel to the 12 months of a year.

4. This is the creative dimensional order (4 space in the role of dimension) mathematics which settles the age of Lord Brahma (creator the supreme) as 432000 years.
5. The age of Lord Brahma as  $432000 = [ \{ (400 + 4000 + 400) + (300 + 3000 + 300) + (200 + 2000 + 200) + (100 + 1000 + 100) \} \times 360 ]$
6. With the emergence of transcendental values from within the creative dimensions, the same with their flow through the six dimensions of (6 space (↗↖)), equip the transcendental boundary components with creative transcendental order, with which each of the transcendental components gets potentialized as the values and order of Sun and thereby the Sun multiplies as 12 folds i.e. 12 Suns / Dwadash Adityas.
7. It would be relevant to note that Lord Brahma, creator the supreme, presiding deity of (4 space (↗↖)) with meditation in the cavity of his heart upon Lord Shiv, the Lord of transcendental worlds (5 space (↗↖)) multiplies 10 folds as 10 Brahamas as the boundary of Shiv Lok (5 space (↗↖)).
8. As such the phase and stage ahead, is the phase and stage of transcendental meditation of Lord Shiv within cavity of his heart on Lord Vishnu and Lord Shiv multiplies 10 fold as 12 Shiv of the values and order of Lord Vishnu, 12 in number.
9. One shall sit comfortably and permit the transcending mind to be phase to phase with the

meditation attainment of Lord Brahma multiplying as 10 Brahamas.

10. And further to be face to face with transcendental meditation of Lord Shiv multiplying as Dwadash Adityas.

### 13

#### 5 SPACE WITHIN 4 SPACE

## POLE STAR

### STEPS 16 TO 20

#### 16

### POLE STAR AS ORIGIN OF SOLAR UNIVERSE

1. One way to chase (7 space  $\rightarrow\leftarrow$ ) Pole star is as a unity state origin of (6 space  $\rightarrow\leftarrow$ ) / Sun.
2. The other way to chase pole star is as a unity state measuring rod (1, 2, 3, 4, 5, 6, 7) / ((1 space  $\rightarrow$ ), 2 space, (3 space  $\square$ ), (4 space B), (5 space  $\mathfrak{G}$ ), (6 space  $\rightarrow\leftarrow$ ) (7 space  $\rightarrow\leftarrow$ ) / hype cube 1 to 7.
3. Still other way to chase pole star (7 space  $\rightarrow\leftarrow$ ) is along artifice 28, the second perfect number.
4. The artifice 28 accept re-organisation as  $28=4 \times 7$ .
5. It would be relevant to note that (4 space  $\boxplus$ ) has transcendental seat (5 space  $\mathfrak{G}$ ) at its origin and that (5 space  $\mathfrak{G}$ ) plays the role of dimension of (7 space  $\rightarrow\leftarrow$ ).

6. Artifice 28 also accepts re-organisation as  $[(1+2+4)+7+14]$ .
7. It is a five steps long progression of values and order 1, 2, 4, 7 and 14.
8. This is of the values and order  $(2^0, 2^1, 2^2) + (2^0, 2^1, 2^2)$ .
9. It would be blissful to chase this five steps long progression along five dimensional frame of (7 space  $\text{☯}$ ).
10. One shall sit comfortably and permit the transcending mind to remain in prolonged deep trans to be face to face with this unity state existence phenomenon.

## 17

### 7 SPACE AS ORIGIN OF 6 SPACE

1. 7 space as origin of (6 space  $\text{☯}$ ) is the phenomenon of attainment of unity state within (6 space  $\text{☯}$ ) / Sun.
2. As (5 space  $\text{☵}$ ) plays the role of boundary of (6 space D) as well as dimension of (7 space  $\text{☯}$ ), as such it would be a blissful exercise to chase this phenomenon of (5 space  $\text{☵}$ ) at the boundary attaining (7 space  $\text{☯}$ ) within (6 space  $\text{☯}$ ) as well as in the universe sphere around (6 space  $\text{☯}$ ).
3. (7 space  $\text{☯}$ ) as origin also deserves to be chase as a seven stream flow from the Bindu Sarovar  $\bullet$ .
4. It also deserves to be chased as of the format of seven geometries of (3 space  $\square$ ).
5. Further it also deserves to be chased as seven non negative geometries of (6 space  $\text{☯}$ ).

6. Still further it deserves to be chased as seven non positive geometries of (6 space  $\rightarrow\leftarrow$ ).
7. Still further it deserves to be chased as manifestation layer (4, 5, 6, 7).
8. Still further it deserves to be chased as transcendental range (3, 4, 5, 6, 7).
9. Still further it deserves to be chased as self referral range (2, 3, 4, 5, 6, 7)
10. It would be a blissful exercise to chase the transition and transformation from (6 space  $\rightarrow\leftarrow$ ) to (7 space  $\rightarrow\leftarrow$ ) as a transition and transformation from 6 as first perfect number to 28 as second perfect number.

## 18

### MANIFESTATION LAYER (4, 5, 6, 7)

The manifestation layers (4, 5, 6, 7) sums up artifices value  $4+5+6+7=22=NVF$  (GO), and as such it would be a blissful exercise to chase pole star as a 'Go' from (6 space  $\rightarrow\leftarrow$ ) domain to (6 space  $\rightarrow\leftarrow$ ) origin.

## 19

### TRANSCENDENTAL RANGE (3, 4, 5, 6, 7)

The transcendental range (3, 4, 5, 6, 7) sums up artifices value  $3+4+5+6+7=25 = 5 \times 5$  and hence a transcendental Go within spatial order of dimension of dimension of dimension of (6 space  $\rightarrow\leftarrow$ ) / Sun.

## 20

### (SELF REFERRAL STATE (2, 3, 4, 5, 6, 7)

The self referral state (2, 3, 4, 5, 6, 7) sums up artifices value  $2+3+4+5+6+7=25 =NVF$  (HALF), and as

such It would be a blissful exercise to chase origin of (6 space D) in terms of half of its domain, i.e. in terms of hemi sphere of Sun as that  $NVF (SUN) = 54 = 27+27 = NVF (HALF, HALF)$ , and further as that  $27 = 3^3$  and  $54 = 3^3 + 3^3$  and as such this split would of the order and values of the split of solid dimensional frame of three solid dimensions.

## **SHABAD BRAHAM**

### **STEPS 21 TO 25**

#### **21**

## **SHABAD BRAHAM**

1. Braham Shabad be formally be given a definition of transcendental values within creator space (4 space).
2. It as such is the expression of 5 space within 4 space.
3. Shabad Braham as such provides format for the Ativahkas / transcendental carriers from 4 space to 5 space.
4. This format is of the values and order of transition from 4<sup>th</sup> element (Vayu / air) to 5<sup>th</sup> element (Akash / Space).
5. The 4<sup>th</sup> element / Vayu / Air fulfills the 5<sup>th</sup> element / Akash / Space.
6. One shall sit comfortably and permit the transcending mind to chase this phenomenon of transition values of Shabad Braham as transcendental carriers.

7. Ancient wisdom enlightens us that these are the virtues of Anahat Nath / the eternal Nad / eternal sound.
8. Ancient wisdom further enlightens about the virtues of Anahat Nat as of the values and order of Braham Jyoti / creative light.
9. Sadkhas attain this vision to glimpse this range of virtues of Anahat Nat transiting and transforming as Braham Jyoti.
10. Anahat Nat to Braham Jyoti range is the range of Braham Drishti / Braham Vision attainable by Braham Rishis / enlightens seers.

## 22

### ANAHATNAT

1. Ancient wisdom enlightens as that the Sadkhas to be meditation attain state of purified sensory domains capable of hearing 'Anahat Nat' of the virtues of Braham Jyoti.
2. Sadkhas by attaining virtues of Anahat Nat transcend through the 5<sup>th</sup> element / Akash / Space and reach orb of the Sun.
3. One shall aspire for attainment of these values virtues and vision.
4. Ancient wisdom enlightens that the sadkhas fulfilled with intensity of urge for such values, virtues and vision go to the shelters of sole syllable Om during meditation.
5. Ancient wisdom further enlightens as that during meditation which is of the order and values of Sun light, firstly purifies the sensory domain.

6. Then, next phase and stage is attained transition from sensory domain to intelligence domain.
7. A step ahead follows the attainment from intelligence domain to the consciousness domain.
8. Like that in a sequential order a step ahead is attained self referral state.
9. And ahead follows, the unity state of consciousness.
10. And from the unity state, transcendental carriers take off of their own and the transcendence through Asht Prakrati becomes possible.

## 23

### **LIFE BREATH**

1. During the take off phase and stage of the transcendental carriers from unity state of consciousness for onward Brahman pilgrimage, the Being also rides the transcendental carriers.
2. It is at this phase and stage that the life breath rides Anahat Nat.

2. These shall be leading to the values and order of 4 space.
3. As 4 space plays the role of dimension, and further as 2 space, as such would become the dimension of dimension of Sun, and further as 2 space accepts 5 geometries while on the other hand 5 space as the seat at origin of 4 space and 3 space as a seat at origin of 2 space, these all features together shall be unified at origin of Sun being of values and order of unity state consciousness of the order and values of 7 space.
4. One shall sit comfortably and permit the transcending mind to be face to face with this unification phenomenon at the origin of Sun.
5. Further it would be relevant exercise to comprehend the transcendence feature of this unification phenomenon at the origin of the Sun.

## 54

### **TRANSCENDENCE RANGE (5, 6, 7, 8, 9)**

The transcendence range (5, 6, 7, 8, 9) deserves to be chased with 5 space in the role of dimension and 9 space in the role of base for 8 space as origin in the light of  $NVF (FIVE) = 42 = NVF (NINE) = NVF (NEW)$  and that 2 space being in the role of dimension of 4 space, the coordination of artifice 2 and 4 with  $4 = 2 + 2 = 2 \times 2 = (-2) \times (-2)$  shall be making a 'NEW' mathematics vis-à-vis the linear order mathematics of 3 space.

## 55

### **SELF REFERRAL RANGE (4, 5, 6, 7, 8, 9)**

The Self referral range (4, 5, 6, 7, 8, 9) with 4 space

of unity state origin is of unique features as much as that 4 space has 9 geometries and the mathematics of synthesis at dimension of dimension level always leads to 4 space, and further as that  $4 = 2^2$  and  $9 = 3^2$  makes 4 and 9 as consecutive squares.

## **SUN RAYS**

### **STEPS 56 TO 60**

#### **56**

## **SUN RAYS**

Sun rays, as synthesized self referral ranges deserve to be chased sequentially, firstly as per the synthesizing value of (4, 5, 6, 7, 8, 9) and (9, 10, 11, 12, 13, 14) which shall be working out a range (4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14), 11 steps long range parallel to 11 geometries of 5 space and further the end values 4 and 14 at dimension of dimensions level shall be of the values and orders of 0 space and 5 space.

#### **57**

## **MANIFESTATION LAYER (5, 6, 7, 8)**

The manifestation layer (5, 6, 7, 8) with  $5+6+7+8=26$  of the values and order of 26 elements of Vishnu Lok and also of the values and orders of components of the geometric envelope of Cube deserves to be chased for different roles of 3 space as dimension of 5 space leading to 6 space as origin and splitting as 7 geometries within 4 space as well as splitting as 8 components / octants as boundary of 4 space.

**58****(40, 48, 56, 64)**

The Values range (40, 48, 56, 64) accepts re-organisation as (8 x 5, 8 x 6, 8 x 7 and 8 x 8) which with  $8=2^3$  and 2 as 1 as of unit cube, and hence as unit of the order and value of solid dimensional order of 5 space, shall be making it a very blissful exercise for chase of the manifestation layer as quadruple values (40, 48, 56, 64).

**59****VIRTUES (40, 48, 56, 64, 72)**

The transcendence range (5, 6, 7, 8, 9) as of value 35, which makes reflection pair with 53, i.e. (35, 53) as a reflection pair split for volume (88), which is also a paired value for space (44), would make it a very blissful chase of virtues range (40, 48, 56, 64, 72).

**60****(40, 48, 56, 64, 72, 80)**

One shall sit comfortably and permit the transcending mind to chase the transition phenomenon from manifestation of values (40, 48, 56, 64) to virtues (40, 48, 56, 64, 72) to self referral range (40, 48, 56, 64, 72, 80)
