AWARENESS EVALUATION STEPS

I

LET US FOLLOW TRANSCENDENTAL CARRIERS OF SUNLIGHT

1. Let us sit comfortably and permit our transcending mind to go for evaluation of awareness of Vedic knowledge systems.
2. To think, meditate, Transcend Glimpse and to Imbibe the format, features, order, values and virtues of Vedic knowledge systems formulations are the phases and steps of glimpsing chase of the transcending mind.
3. Each Vedic knowledge system formulation has its distinct format and features, order, values and virtues.
4. The chase of 'format, features, order, values and virtues' of Vedic knowledge systems formulations by transcending mind is of chase phases steps of thinking, meditating, transcending, glimpsing and imbibing the sound frequencies along light frequencies manifesting as impulses of one's consciousness which itself is of seven states namely waking, dream, deep sleep, Turia, Turiaatit, gods and unity state of consciousness
5. This brings us face to face with the awareness spectrum of Vedic knowledge systems of individual sadkas whose self evaluation by the sadkha, in itself is a step towards enlightenment
6. This as such brings us to the shelter of Upnishad, essence of Vedas which settle

- two fold initiation paths, one being along the 'Isha Upnishad', which is the culminating chapter of Yajurved and second path is as is settle by Mandukyo Upnishad approaching Braham, quarter by quarter parallel to four components / letters of sole syllable (ॐ) manifesting as letters (i) अ (ii) उ (iii) म् and (iv) integrated set up of three letters themselves as ओउम्
7. Of these two, beginning with 'Om Itah Ek Akshar Braham ओउम् इति एक अक्षर ब्रह्म्' and reaching uptill Isha Vasmidam Sarvam Yat kinch Jagatayam Jagat ओम् ईशा वास्यमिद् सर्वं यत्किञ्च जगत्यां जगत्।' is the Sankhiya Nishtha and proceeding other way is the Yoga Nishtha
8. Sankhiya Nishtha presumes the existence of geometric formats and avails artifices of numbers while on the other hand Yoga Nishtha presume the existence of numbers and avails dimensional frames and as such Sankhiya Nishtha and Yoga Nishtha not only run parallel to each other, despite being of opposite orientation, but also both these processing approaches complement and supplement each other at each phase and stage of processing steps.
9. This being so numbers and bodies become the basic tools and entities to be availed for chase of Vedic knowledge systems.
10. Accordingly place value system of numbers values and artifices organizations and manifestation formats for space content as manifested domains within internal and external frames of dimension and boundary provide the basic formats for chase of Vedic knowledge systems
11. This further leads to ten place value system and hyper cube 5 format for transcendental (5-space) domains being at the center of the whole chase mechanism of Vedic knowledge systems.
12. This being so our awareness evaluation of Vedic knowledge systems of Vedic Mathematics, Science & Technology is to begin with the creative boundary (4-space as boundary) of transcendental (5-space) domain providing format for ten place value systems:

Blissful exercise

- One shall sit comfortably and permit the transcending mind to glimpse creative boundary of transcendental (5-space) domain as a format of ten place value system.
- Chase the following NVF equation
 - NVF (Format) = 73 = NVF (Caged light)
 - NVF (Features) = 79 = NVF (Nature)
 - NVF (Order) = 60 = NVF (Four)
 - NVF (Values) = 80 = NVF (Creator)
 - NVF (Vision) = 88 = NVF (Volume) = NVF (Space) + NVF (Space)
 - NVF (Think) = 62 = NVF (Cosmic)
 - NVF (Meditate) = 77 = NVF (Christ) = NVF (Matter)
 - NVF (Transcend) = 98 = NVF (Axes) + NVF (Axes)
 - NVF (Glimpse) = 77 = NVF (Matter) = NVF (Court)
 - NVF (Imbibe) = 40 = NVF (Mind) = NVF (line) *
