(1884-1960)

All are invited to join Awareness program

All are warmly invited to join the awareness program of Vedic Mathematics. All teachers, parents and students are invited to Learn and Teach Vedic Mathematics for proper intelligence growth at School.

Vedic Mathematics and
modern Mathematics

01-04

*Vedic Mathematics
and Modern Mathematics*

- I. Vedic Mathematics and Modern Mathematics
- II. Second phase of applied values of Vedic Mathematics
- III. First assumption of the Book: Analytical Solid Geometry
- IV. Conics to Conicoids
- V. **To Bag bodies to reach at space bed of bodies**

**VI
Solid Domain**

1. Spatial boundary envelops solid domain.
2. Linear dimensional order binds the solid domain in terms of three dimensional frame of linear dimensions.
3. There emerges 9 points fixation of solid domains.
4. Cube as 3-space body has fixation for its domain in terms of geometric envelope of 26 components (8 corner points, 12 edges, 6 surfaces) with three dimensional frames of half dimensions embedded in each of the eight corner points and 9th three dimensional frame of full dimensions embedded in the center of the cube.
5. Cube permits split into 8 sub cubes parallel to 8 octants split of space within a three dimensional frame of linear axes of spatial formats. The split of cube into 8 sub cubes and further split for sub cube as 8 sub sub cubes lead to a sequential feature of solid domain.

6. The split feature of cube as 8 sub cubes has integration feature for 8 sub cubes as a cube because of 9th unmanifest state sub cube with its eight corner points super imposed upon the centers of 8 sub cubes.
7. One shall have a pause here and have a fresh visit to these features of domain of cube.
8. One shall be face to face with this set up of 8 sub cubes of cube remaining integrated in terms of unmanifest 9th sub cube format
9. One may have a pause here and take note that it is because of this unmanifest format of 9th sub cube that three dimensional frame with its origin at center of cube remains integrated
10. This further brings to focus, the synthetic set up of a three dimensional frame of a pair of three dimensional frames of half dimensions.
11. This pair of three dimensional frames of half dimensions, together with eight three dimensional frames of half dimensions embedded in 8 corner points of cube, as such make out the set up of 10 three dimensional frames of half dimensions.
12. One may have a pause here and take note that this set of 10 three dimensional frames of half dimensions shall be transiting and transforming into a set up of hyper cube 4 format as 4-space domain enveloped within solid boundary of 8 components because of a set of 8 three dimensional frames and the remaining pair of three dimensional frames synthesizing a solid order transcendental (5-space) as origin fold of hyper cube 4.
13. One may have a pause here and take note that the synthesis value of a pair of solid dimension (three space in the role of dimension) comes to be $(3, 3) = 5 /$ transcendental (5-space) set up
14. One may further have a pause here and revisit the above set up and chase it again from the stage of the set up of solid domain (cube), and its transition and transformation into the set up of hyper cube -4
15. It would be a blissful exercise to be face to face with the solid order transcendental (5-space) (origin) of hyper cube 4.
16. One may have a pause here and take note that cube (domain) is of a linear dimensional order and its split at origin leads to spatial order set up (4-space) domain enveloped within solid boundary of eight components while origin of hyper cube 4 being of a solid order of transcendental (5-space) domain.
17. As such the solid geometry chase would take us uptill the solid order of transcendental (5-space) domain, as origin of 4-space as of solid order while 4-space domain itself being of a spatial order. A reach at the features of solid geometry requiring the chase of features of solid dimensional order origin of spatial order 4-space domain

To be continued....

Dr. S. K. Kapoor, (Ved Ratan)

Incredible India format

Today let us think of **Vedic sounds** to appreciate incredible India format, education policy direction, skills development vision and creation of jobs pool.

=====

Earth to Pole Star Unity format Values**(Black Matter and Light)****Be parallel to Creations format****120 years cyclic sustenance****Incredible India format**

Incredible India format is of 120 years cyclic sustenance for the continuity of Existence Phenomenon within human frame. This becomes the basis of our collective Existence. The central focus of this cyclic format is that manifested creations provide transcendence therefrom within a period of 120 years which is parallel to full expression format for 12 streams of Jyoti flow along each of the ten directions of the directional frame of Existence Phenomenon within manifested frames

Also see at http://mygov.in/group_info/incredible-india

*

Education policy direction

The Education Policy Direction shall be specific of applied values needed for 120 years cyclic order of sustenance of continuity of Existence Phenomenon within Human Frame. One is to learn proper applications of pure values for

sustenance of Life within Human Frame. The knowledge of Human Frame and wisdom to be parallel to the features of Human Frame requires an enlightenment over which is to be the focus of education policy direction. To respect Life would mean to respect Human Frame .

Also see at http://mygov.in/group_info/new-education-policy

*

Skills development vision

The skills development vision is to go parallel with the sustenance of life within Human Frame as 120 years cyclic Phenomenon. Human resource is to be indexed as per the Life sustenance feature of human faculties. The expectations of reach of human faculties in terms of human organs, including that of mental faculty, intelligence field and consciousness states have to be kept within realistic evaluation index of each individual being put under skills development vision.

*

Jobs creation pool

Jobs creation pool is to be of cyclic mode parallel to 120 years cyclic mode of Existence within Human Frame. This as such would of its own go parallel to renewing features of transcendental format of manifested creations. The inherent features of transcendental base shall be renewing itself to be self referral to attain unity state for the jobs creation pool. Therefore the assignment of having jobs creations pool to be full would mean tap transcendental base of manifested creations.
