VEDIC MATHEMATICS AWARENESS YEAR

E-Newsletter Issue no 267 dated 02-08-2015

For previous issues and further more information visit at www.vedicganita.org

Organizers: Dr. S. K. Kapoor, Sh. Rakesh Bhatia, Sh. Bhim Sein Khanna, Sh. Deepak Girdhar

VMS & T Awareness course

(Duration: 1-8-2015 to 30-09-2015)

1. Formulation (मनस)

2

Existence within framed domains

1. Reality of our Existence Phenomenon is, as to be within Framed Domains.
2. This Reality is there, because of, creations within creator space (4-space) are 'manifested creations'.
3. The 'manifested creations' are of four folds format parallel to the format and features of 'Idol' of Lord Brahma, creator the supreme.
4. This format, as such is designated and accepted as manifestation layer' set up of 'dimension fold, boundary fold, domain fold and origin fold'.
5. These features are of consecutive quadruple spaces contents.
6. Domain fold, wrapped within boundary fold makes its role as a 'Framed Domain'.
7. In addition to the external frame, in the form of geometric envelope, because of boundary fold, the domain fold also accepts internal frame designated and accepted as 'dimensional frame'.
8. The prominent feature of the dimensional frame comes to be that, 'origin of the dimensional frame', gets super imposed upon the center of 'domain fold'.
9. This super imposition, that way becomes the 'seal at the center of the Domain' and with it, domain remains integrated within external geometric envelope.
10. However, this extra ordinary feature of this set up of integrated domain within frames, is that despite seal at the center of the domain, which is the seat of 'origin fold', the higher degree dimensional order of origin fold, makes the set up, to be of potentiality to have transcendence for the dimensional order of origin fold and thereby happens to be the super imposition of higher dimension order of origin fold upon the lower dimensional order of domain fold.
11. It is this feature of manifested creations, which deserves more focused attention, as here is the inherent transcendental

- values and virtues flow within the domain folds.
12. And this feature brings us face to face with the transition and transformation format for the four fold manifested creations to go transcendental by having an additional fold, the fifth fold, being designated and accepted as the base fold, at base of origin fold.
 13. One may have a pause here and take note that the emerging transcendence range of five folds, as set ups of five consecutive spaces contents, as 'n, n + 1, n + 2, n + 3, n + 4' is inherently capable of playing the role of **TRANSLATION FORMAT** for the manifestation layer (n, n + 1, n + 2, n + 3) to get transformed into the next generation manifestation layer (n + 1, n + 2, n + 3, n + 4) and it is this feature of five fold transcendence range (n + 1, n + 2, n + 3, n + 4) of formation for permitting fold by fold translation for manifestation layer (n, n + 2, n + 3) into next generation manifestation layers (n + 1, n + 2, n + 3, n + 4)
 14. One may have a pause here, sit comfortably and permit the transcending mind and to continuously remain in prolonged sitting of deep trans and to glimpse and be face to face with this **TRANSLATION FORMAT** Phenomenon.
 15. One shall further have a pause here and be face to face with the dual frames of domain fold getting transition and transformation into next generation domain frames.
 18. Cube is the manifested creations of four fold format '1-Space content' as dimension fold, 2-Space content as boundary fold, 3-Space content as domain fold and 4-space content as origin fold.
 19. External frame of cube is the geometric envelope of 26 components (8 corner points, 12 edges and 6 surfaces).
 20. Internal frame of cube is a three dimensional frame of three (linear axes) with origin super imposed upon the center of cube being the seat of origin fold.
 21. The base fold, at the base of origin fold of manifestation layer (1, 2, 3, 4) of cube as hyper cube 4, is the fifth fold of the transcendence range (1, 2, 3, 4, 5).
 22. One may have a pause here and take note that 4-space in the role of origin fold and 5-space in the role of base fold are of spatial order (2-Space in the role of dimension of 4-space) and solid order (3-Space in the role of dimension of 5-space).
 23. One may further have a pause here and take note that the solid order (3-Space as dimension) is of higher degree than that of spatial order (2-Space as dimension).
 24. One may further have a pause here and take note that because of higher degree dimensional order of base fold, it transcends through the lower degree dimensional order of origin fold and gets super imposed upon the domain fold.
 25. One may further have a pause here and take note that 3-Space as domain fold and 3-Space as dimension fold are getting super imposed in the process of transcendence by way of ascendance from base fold into domain fold through origin fold.

Generational Domains Sequence

16. Points, lines, surfaces, solids, hyper solids 4, 5, 6, --- are members of 'GENERATIONAL DOMAINS SEQUENCE'.
17. 'Cube', our well known body, is the representative regular body of solids.
26. It is this transition and transformation by way of super imposition of roles for domain fold (from domain fold to that of

dimension fold) which deserve to be comprehended well.

27. It is with the appreciation of above transition and transformation of roles for the domain fold into that of dimension fold and by imbibing these features and values that one can attain proper insight and enlightened vision about this Phenomenon.

Transcendental domain

28. 5-space content lump manifesting as domain fold of hyper cube 5 as a four fold manifestation layer (3, 4, 5, 6), in a way is the resultant attainment of transcendence through the format of hyper cube 4 as a four fold manifestation layer (2, 3, 4, 5).
29. Transcendental domain (5-space as domain fold of hyper cube 5) accepts creative (4-space) boundary and solid order (3-Space in the role of dimension) of its dimensional frame.
30. Transcendental domain manifests five fold transcendence ranges format (n, n + 2, n + 3, n + 4).
31. The transcendence range (n, n + 2, n + 3, n + 4) with its summation value = $5n + 10$ permitting re-organization as $5n + 10 = 5(n - 2)$.
32. One may have a pause here and take note that the n-Space in the role of dimension, along the transcendence range (n, n + 2, n + 3, n + 4) re-organizes itself as a dimensional frame of five dimensions of (n - 2) dimensional order.
33. One may have a pause here and take note that the artifices pair (n, n - 2) is parallel to the format of (domain fold, dimension fold)
34. With it, it prominently emerges as that n-Space in the role of dimension creates transcendence range (n, n + 2, n + 3, n +

4) of value parallel to dimensional frame of five dimensions of order (n - 2).

35. It would be blissful to be face to face with this Phenomenon as that every space, at its dimensional level in the role of dimensional role of five dimensions, goes parallel to the value of transcendence range.
36. It is this inter relationship of space with its dimension and parallel to it of five dimensional frame with the transcendence range, which deserve to be comprehended well for its proper appreciation to have complete imbibing of format and features and values of this Phenomenon to acquire deep insight and enlightened vision about the virtue of this Phenomenon.

Synthesis of five dimensions of same order

37. Synthesis value of five linear dimensions is $1 + 2 + 3 + 4 + 5 = 15$
38. Synthesis value of five spatial dimensions is $2 + 2 + 2 + 2 + 2 = 10$
39. Synthesis value of five solid dimensions is '5'
40. Synthesis value of five creative dimensions (4-space as dimension) is zero.
41. Synthesis value of five transcendental dimensions (5-space as dimensions) is '-5'
42. One may have a pause here and take note that Synthesis value of five dimensions of order n is $5(n-2)$
43. One shall have a pause here and permit the transcending mind to continuously remain in prolonged sitting of deep trans and to be face to face with the sequential rule of synthesis values of five dimensions of same order and to imbibe values and virtues emerging along dimensional synthesis format of five

dimensions and to acquire insight and vision.

44. It would be a blissful chase above transcendental Phenomenon of transcendental domains and to have an enlightened vision about the Framed Domains on the path of Generational Existence Phenomenon within Framed domains along the manifested creations formats of creator space (4-space).

Intelligence field

45. One may have a pause here and take note that the 'mind' creates 'intelligence field' while being along 'generational sequential path' for chase of 'Existence within 'framed domains'.
46. 'Mind', as such transits and transforms itself as a field of 'brain'.
47. 'Brain' as an organ being the framed domain, designated and accepted as of external enveloping set up of 'head', deserve to be chased along manifestation formats of (i) head (ii) brain
48. One may have a pause here and take note that $NVF(\text{Head}) = 18 = 3 + 4 + 5 + 6$, which is parallel to quadruple artifices (3, 4, 5, 6) which is further parallel to quadruple folds manifestation layer (3, 4, 5, 6) of hyper cube 5.
49. Still further the $NVF(\text{brain}) = 42 = NVF(\text{New}) = NVF(\text{five}) = NVF(\text{Nine})$ on its chase will help us comprehend and appreciate 'brain as framed domain' enveloped by 'head' format.
50. One may further have a pause here and take note that the $NVF(\text{Mind}) = 40$ and $NVF(\text{Brain}) = 42$ brings us face to face with artifices pair (42, 40) which is parallel to (domain, dimension format)
51. One may further have a pause here and take note that the $TCV(\text{बुद्धिः}) = 10 + 15 + 13 = 38 = 8 + 9 + 10 + 11$ which is parallel to quadruple artifices (8, 9, 10, 11) which further is parallel to four fold manifestation layer (8, 9, 10, 11) of hyper cube 10.
52. The simple English rendering for 'बुद्धिः' / 'Budhi' is 'intelligence' (field).
53. One may further have a pause here and take note that the $TCV(\text{मनस्}) = 22 = 4 + 5 + 6 + 7$ which is parallel to quadruple artifices (4, 5, 6, 7) which further is parallel to four fold manifestation layer (4, 5, 6, 7) of hyper cube 6
54. One may further have a pause here and take note that the artifices pair (22, 38) and parallel to it hyper cubes pair (hyper cube 6, hyper cube 10) on their chase will help us comprehend and appreciate coordination of artifices pairs (4, 8), (5, 9), (6, 10) and (7, 11) which will bring us face to face with the format of the dimension fold, base fold format.
55. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of deep trans and to glimpse this Phenomenon of coordination of dimensional order with the base fold of transcendence range and to be face to face with the format and features of emergence of intelligence field and its manifestation as a mind within brain enveloped by head.
56. One may further have a pause here and take note that one shall time and again permit the transcending mind to glimpse this transcendental Phenomenon of emergence of intelligence field and its manifestation as mind within brain enveloped by head lively at the base of the Existence Phenomenon within framed domains. ■
