XII

Transition from Linear order transcendence range to spatial order transcendence range

1. The transcendence from linear order transcendence range (1, 2, 3, 4, 5) to spatial order transcendence range (2, 3, 4, 5, 6) is of five fold format.
2. First fold of transcendence format is of transcendence from 1-space as dimension to 2-space as dimension.
3. Second fold of transcendence format is of transcendence from 2-space as boundary to 3-space as boundary.
4. Third fold of transcendence format is of transcendence from 3-space as domain to 4-space as domain.
5. Fourth fold of transcendence format is of transcendence from 4-space as origin to 5-space as origin.
6. Fifth fold of transcendence format is of transcendence from 5-space as base of origin to 6-space as base of origin.

XIII

Transition from spatial order transcendence range to solid order transcendence range

7. The transcendence from **spatial** order transcendence range **(2, 3, 4, 5, 6)** to **solid** order transcendence range **(3, 4, 5, 6, 7)** is of five fold format.
8. First fold of transcendence format is of transcendence from **2-space** as dimension to **3-space** as dimension.
9. Second fold of transcendence format is of transcendence from **3-space** as boundary to **4-space** as boundary.
10. Third fold of transcendence format is of transcendence from **4-space** as domain to **5-space** as domain.
11. Fourth fold of transcendence format is of transcendence from **5-space** as origin to **6-space** as origin.
12. Fifth fold of transcendence format is of transcendence from **6-space** as base of origin to **7-space** as base of origin.

XIV

Transition from solid order transcendence range to creative order transcendence range

13. The transcendence from **solid** order transcendence range **(3, 4, 5, 6, 7)** to **creative** order transcendence range **(4, 5, 6, 7, 8)** is of five fold format.
14. First fold of transcendence format is of transcendence from **3-space** as dimension to **4-space** as dimension.
15. Second fold of transcendence format is of transcendence from **4-space** as boundary to **5-space** as boundary.
16. Third fold of transcendence format is of transcendence from **5-space** as domain to **6-space** as domain.
17. Fourth fold of transcendence format is of transcendence from **6-space** as origin to **7-space** as origin.
18. Fifth fold of transcendence format is of transcendence from **7-space** as base of origin to **8-space** as base of origin.

XV

Transition from creative order transcendence range to transcendental order transcendence range

19. The transcendence from **creative** order transcendence range **(4, 5, 6, 7, 8)** to **transcendental** order transcendence range **(5, 6, 7, 8, 9)** is of five fold format.
20. First fold of transcendence format is of transcendence from **4-space** as dimension to **5-space** as dimension.
21. Second fold of transcendence format is of transcendence from **5-space** as boundary to **6-space** as boundary.

22. Third fold of transcendence format is of transcendence from **6-space** as domain to **7-space** as domain.
23. Fourth fold of transcendence format is of transcendence from **7-space** as origin to **8-space** as origin.
24. Fifth fold of transcendence format is of transcendence from **8-space** as base of origin to **9-space** as base of origin.

XVI

Transition from transcendental order transcendence range to self referral order transcendence range

25. The transcendence from **transcendental** order transcendence range (**5, 6, 7, 8, 9**) to **self referral** order transcendence range (**6, 7, 8, 9, 10**) is of five fold format.
26. First fold of transcendence format is of transcendence from **5-space** as dimension to **6-space** as dimension.
27. Second fold of transcendence format is of transcendence from **6-space** as boundary to **7-space** as boundary.
28. Third fold of transcendence format is of transcendence from **7-space** as domain to **8-space** as domain.
29. Fourth fold of transcendence format is of transcendence from **8-space** as origin to **9-space** as origin.
30. Fifth fold of transcendence format is of transcendence from **9-space** as base of origin to **10-space** as base of origin.

XVII

Transition from Linear order self referral range to spatial order self referral range

31. The transcendence from linear order self referral range (1, 2, 3, 4, 5, 6) to spatial order self referral range (2, 3, 4, 5, 6, 7) is of six fold format.
32. First fold of transition format is of transcendence from **1-space** as dimension to **2-space** as dimension.
33. Second fold of transition format is of transcendence from **2-space** as boundary to **3-space** as boundary.
34. Third fold of transition format is of transcendence from **3-space** as domain to **4-space** as domain.
35. Fourth fold of transition format is of transcendence from **4-space** as origin to **5-space** as origin.
36. Fifth fold of transition format is of transcendence from **5-space** as base of origin to **6-space** as base of origin.
37. Sixth fold of transition format is of transcendence from **6-space** as Base format of origin to **7-space** as Base format.

XVIII

Transition from spatial order self referral range to solid order self referral range

38. The transcendence from **spatial** order self referral range (2, 3, 4, 5, 6, 7) to spatial order self referral range (3, 4, 5, 6, 7, 8) is of six fold format.
39. First fold of transition format is of transcendence from 2-space as dimension to 3-space as dimension.
40. Second fold of transition format is of transcendence from 3-space as boundary to 4-space as boundary.
41. Third fold of transition format is of transcendence from 4-space as domain to 5-space as domain.
42. Fourth fold of transition format is of transcendence from 5-space as origin to 6-space as origin.
43. Fifth fold of transition format is of transcendence from 6-space as base of origin to 7-space as base of origin.
44. Sixth fold of transition format is of transcendence from 7-space as Base format of origin to 8-space as Base format.

XIX

Transition from solid order self referral range to creative order self referral range

45. The transcendence from **solid** order self referral range (3, 4, 5, 6, 7, 8) to **creative** order self referral range (4, 5, 6, 7, 8, 9) is of six fold format.
46. First fold of transition format is of transcendence from 3-space as dimension to 4-space as dimension.
47. Second fold of transition format is of transcendence from 4-space as boundary to 5-space as boundary.
48. Third fold of transition format is of transcendence from 5-space as domain to 6-space as domain.
49. Fourth fold of transition format is of transcendence from 6-space as origin to 7-space as origin.
50. Fifth fold of transition format is of transcendence from 7-space as base of origin to 8-space as base of origin.
51. Sixth fold of transition format is of transcendence from 8-space as Base format of origin to 9-space as Base format.

XX

Transition from creative order self referral range to transcendental order self referral range

52. The transcendence from **creative** order self referral range (4, 5, 6, 7, 8, 9) to **transcendental** order self referral range (5, 6, 7, 8, 9, 10) is of six fold format.
53. First fold of transition format is of transcendence from 4-space as dimension to 5-space as dimension.
54. Second fold of transition format is of transcendence from 5-space as boundary to 6-space as boundary.
55. Third fold of transition format is of transcendence from 6-space as domain to 7-space as domain.
56. Fourth fold of transition format is of transcendence from 7-space as origin to 8-space as origin.
57. Fifth fold of transition format is of transcendence from 8-space as base of origin to 9-space as base of origin.
58. Sixth fold of transition format is of transcendence from 9-space as Base format of origin to 10-space as Base format.

Transition from transcendental order self referral range to self referral order self referral range

59. The transcendence from **transcendental** order self referral range (5, 6, 7, 8, 9, 10) to **self referral** order self referral range (6, 7, 8, 9, 10, 11) is of six fold format.
60. First fold of transition format is of transcendence from 5-space as dimension to 6-space as dimension.
61. Second fold of transition format is of transcendence from 6-space as boundary to 7-space as boundary.
62. Third fold of transition format is of transcendence from 7-space as domain to 8-space as domain.
63. Fourth fold of transition format is of transcendence from 8-space as origin to 9-space as origin.
64. Fifth fold of transition format is of transcendence from 9-space as base of origin to 10-space as base of origin.
65. Sixth fold of transition format is of transcendence from 10-space as Base format of origin to 11-space as Base format.
