शिव पुराण
(Shiv Puran)

**Vedic mathematics, Science & Technology
SOURCE SCRIPTURE**

- 0.1 Vedic mathematics, Science & Technology is Ancient Wisdom Discipline of transcendental domain (5-space content lump manifestation permitting transcendence).
- 0.2 Shiv Puran is the complete scripture of Ancient Wisdom of transcendental domains presided by Lord Shiv.
- 0.3 Shiv Puran is the text book of Ancient Wisdom of transcendental domains.
- 0.4 Present day knowledge systems as these stand sealed, need be transcended through for transition therefrom. And as such let us learn, comprehend, appreciate and imbibe the values of Ancient Wisdom of transcendental domains to have insight and to be face to face with the values of transcendental domains and to glimpse and avail the virtues of these values.
- 0.5 Transcendental domains chase is a solemn exercise which is naturally going to be of a prolonged consciousness field surfacing. This being so, this attainment is to be approached in an institutional way.

- 0.6 Institutionalised learning for transcendental Discipline is expected to be of many phased instructions, study, research and dissemination of transcendental values and acquisition of virtues thereof.
- 0.7 The initial phase is to be of instructions and learning of features of hyper cube 5 format.
- 0.8 This phase is to be the processing values of Sankhiya Nishtha and Yoga Nishtha.
- 0.9 Sankhiya Nishtha presumes the existence of dimensional frames and avails artifices of number, while on the other hand Yoga Nishtha presumes the existence of artifices of numbers and avails dimensional frames.
- 0.10 The present phase and stage of transcendental chase, as such is to be as per the values of Sankhiya Nishtha, is to be of format of number 5, while as per the values of Yoga Nishtha is to be of format of dimensional frame of 5-space.
- 0.11 With this, number 5 and hyper cube 5 formats are going to be our basic mathematical tools help for our present phase and stage of initial learning attempt.
- 0.12 Shiv Puran enlightens us about two fold values of Lord Shiv expressing as Murti (मूर्ति) and also as Ling 'लिङ्ग' / manifested form transcendental hyper cube 5 format form of artifice 5 format.

STEP – 1

SANKHIYA NISHTHA FORMAT

- 1.1 Sankhiya Nishtha format presumes the existence of geometric formats and avails artifices of numbers format.
- 1.2 Sankhiya Nishtha format approach to transcendental (5-space content manifestations) domains, as such is of the values of artifices of Number '5'.
- 1.3 Shiv Puran enlightens us about Idol of Lord Shiv in Murti (मूर्ति) expression as of format values of 5 head lord with each head equipped with three eyes and Lord having 10 beautiful arms.
- 1.4 These values expression of 5 heads, 3 eyes of each head, 10 arms are parallel to the geometric format of hyper cube 5 as four fold manifestation layer (3, 4, 5, 6) / (3-space in the role of dimension, 4-space in the role of boundary, 5-space in the role of domain, 6-space in the role of origin) / 3-space content manifestation for dimension fold, 4-space content manifestation for boundary fold, 5-space content manifestation for domain fold, 6-space content manifestation for origin fold)
- 1.5 The Idol (Murti) expression values and hyper cube 5 expression values, are parallel to each other as being tabulated hereunder:

Ideal expression	Hyper cube expression
5-heads	5 dimensions
Three eyes in each head	Solid dimensional order / 3-space in the role of dimension / 3-space content format for dimension fold
10 arms	10 boundary components
Lord Vishnu	Six head lord, the lord of Lord Shiv
6-space	6-space in the role of origin fold

Note

1. References from the scriptural text (Shiv Puran) and geometrical format concept features of hyper cube 5, as such are being presumed here, just to indicate the values chase format is going to be the above format.
2. However, being conscious of the absolute necessity for such references of scriptural text and explanatory notes about geometric concept and values, the same, hence forth would be duly attended to, to facilitate, Chase of the subject.
