Space zoom and pulsating stars

I Our universe

1. Universe in which we exist is of manifested creations format.
2. Existence along manifested creations format is the Phenomenon of 'framed domains'.
3. Framed domains are of the format and features which permit transcendence and super imposition of higher dimensional order upon the lower dimensional order of the domain fold.
4. This makes our universe as of a content which zooms and makes a Phenomenon of pulsating stars.
5. One may have a pause here and permit the transcending mind to continuously remain in prolonged sitting of trans and glimpse and imbibe the values of space content zoom and of pulsating stars.

6. Vedic Systems chase it as a unity state coverage by Sathapatya measuring rod presided by Lord Vishnu with its measure being presided by Lord Brahma.
7. This chase as such becomes the chase of Earth to Sun range.
8. The Earth to Sun range is a six steps long range of Earth, Water, Fire, Air, Space and Sun.
9. This six steps long range of 'Earth, Water, Fire, Air, Space and Sun' is of the format of 'hyper cubes 1 to 6', in the roles of dimensions.
10. Hyper cube 1 is the set up of a four fold manifestation layer (-1, 0, 1, 2) which in the role of dimension, sequentially takes us to four fold manifestation layer (1, 2, 3, 4) of hyper cube 3.
11. Likewise hyper cube 2 shall be taking us to hyper cube 4.
12. Ahead, hyper cube 3 shall be taking us to hyper cube 5.

13. And hyper cube 4 shall be taking us to hyper cube.
14. One may have a pause here and take note that the above attainment is parallel to the attainment of a translation along the format of six fold self referral (6-space) range.
15. One may have a pause here and take note that the above translation Phenomenon is of the format and features of transcendence Phenomenon which amounts to jump over third and four folds / (3, 4) in its both orientations of the set ups of (3, 4), as well as (4, 3) set up.
16. One may have a pause here and recapitulate the format and features of translation Phenomenon of a manifestation layer along the self referral (6-space) domain, analyzed above under the aspect 'Existence Phenomenon'.
17. One may further have a pause here and take note that the and revisit the above chase and to glimpse and imbibe the above format and features to comprehend and appreciate the Phenomenon of 'expanding universe', as well as of 'pulsating stars'.

II Expanding universe

18. Our universe acquires the features of expanding universe while in the process of translation of manifested creations along self referral (6-space) range.
19. This acquisition by the manifested creations is there because of the permissibility of transcendence through the origin of the domain fold.
20. One may have a pause here and recapitulate that the transcendence takes place because of push for the base fold from its format, in terms of which the higher dimensional order stands superimposed upon the lower dimensional order of the domain fold.
21. It is as a result of this super imposition of higher dimensional order upon the 'lower' dimensional order. That the space content of domain fold (zooms) and thereby our universe acquires the features of Expanding Universe.
22. One may further have a pause here and permit the transcending mind to continuously remain in prolonged sitting of trans and to glimpse this Phenomenon thoroughly and to appreciate the same fully to have complete insight and enlightened vision about the Phenomenon of expanding universe.
23. One may further have a pause here and take note that the Phenomenon of pulsating stars as well is interconnected with the format and features of space content zoom.

III Pulsating stars

24. The Phenomenon of pulsating stars and expanding universe are inter connected.
25. The first manifestation layer (1, 2, 3, 4) of the self referral (6-space) range (1, 2, 3, 4, 5, 6) has up till its third manifestation layer (3, 4, 5, 6) by a jump over (3, 4) folds.
26. Here it would be relevant to note that the second manifestation layer (2, 3, 4, 5) with its reverse orientation (5, 4, 3, 2) accepting placement for (5) as fifth fold of the first transcendence range (1, 2, 3, 4, 5) and for (2) as the first fold of the second transcendence range. (2, 3, 4, 5) synthesize a bridge in terms of (3, 4) and (4, 3).
27. One may further have a pause here and take note that the feature (3, 4) as such manifests format for expanding universe, while the format (4, 3) together with (3, 4) manifest format for pulsating stars.

28. One may have a pause here and take note that with synthesis of a pair of transcendence ranges (1, 2, 3, 4) and (2, 3, 4, 5, 6) as self referral (6-space) range (1, 2, 3, 4, 5, 6).
29. The middle manifestation layer (2, 3, 4, 5) as such becomes the basic format of hyper cube 4 parallel to the format of Idol of Lord Brahma, creator the supreme for the whole range of manifested creations of our universe with its two fold features of expanding universe and of pulsating stars.
30. This Phenomenon of our universe as expanding universe and as universe of pulsating stars deserve to be chased.
31. One shall sit comfortably and permit the transcending mind to be face to face with the format and features of our Existence Phenomenon within the Universe of the format of expanding universe and the universe of pulsating stars.
