### Formation of

## VEDIC MATHEMATICS SCIENCE AND TECHNOLOGY UNIVERSITY

**Note :-**

**Re-evaluation of Vedic  
Mathematics Awareness quarter**

The quarter from 1-7-2015 to 30-09-2015 is the ‘**Re-evaluation of Vedic Mathematics Awareness quarter**’.

Let u revisit our awareness of Vedic Mathematics Values, pure and applied. Let us **urge to know** more about Vedic mathematics, Science & Technology.

Let us pose to ourselves **whether formation of Vedic mathematics, Science & Technology University** is the need of the time.

**EXISTENCE WITHIN FRAMES**

**PROJECTIONS FOR VISION EXTENSION-6**

**अतिवाहकः ब्रह्म् ATIVAKAS BRAHAM  
(Brahman Transcendental carriers)**

1. TCV (ब्रह्म्) = 28
2. TCV (अतिवाहक) = 28
3. TCV (अतिवाहक ब्रह्म्) = 56
4. Splits spectrum for Ativahakas Braham is of following phases stages value:

‘Split Spectrum Table’

Col. 1	Col. 2	Col. 3	Col. 4	Col. 5
1	56	1	0	-
2	54	2	1	52
3	52	5	2	50
4	50	12	5	48
5	48	29	12	46
6	46	70	29	44
7	44	169	70	42
8	42	408	169	40
9	40	985	408	38
10	38	2378	985	36

Note Col. 1 = Serial number, Col. 2 = Spectrum dimensions order, Col. 3 = Number of arrays of directions as array of spectrum at this phase and stage of split spectrum, Col. 4 = Release of dimensions of dimensions orders, Col. 5 = Value / order of released dimensions of dimensions

5. One may have a pause here and take note that the at initial stage Ativahka Braham is of dimensional order value ‘56’
6. Artifices quadruple (52, 54, 56, 58), as such is parallel to NVF values quadruple of (Earth, Sun, Light, Star)
7. One may have a pause here and take note that the artifice 58 permits re-organization as  $58 = 28 + 30$ .
8. It would be relevant to note that artifices pair (28, 30) is parallel to the format of dimension fold, domain fold.
9. Further it also would be relevant to note that the split of dimensional order of value 30 shall be leading to a pair of streams of value 28 each.
10. Also further there would be a release of dimension of dimension order of value ‘26’.
11. One may have a pause here and take note that  $56 = 28 + 28$ , and the parallel split spectrums for dimensional orders of value 56 and value 28 on their chase for first five phases and stages of split shall be bringing us face to face the following pair of arrays of values of dimensional orders of spectrum dimensions as under
  - (i) 56, 54, 52, 50, 48 in respect of dimensional order of value 56 and the sequential array of number of spectrum dimensions in this case would be (1, 2, 5, 12, 29)
  - (ii) 28, 26, 24, 22, 20 in respect of dimensional order of value 28 and the sequential array of number of

spectrum dimensions in this case would be (1, 2, 5, 12, 29)

12. One may have a pause here and permit the transcending mind to be face to face with the above pair of arrays of spectrum dimensions of dimensional order 56 and dimensional order 28 and to appreciate the characteristics features of pair of spectrum at each of the five phases and stages of split in both cases of dimensional order of value 56 as well as in respect of dimensional order of value 28.
13. It would be relevant to note that in case of split spectrum of fifth phase and stage of split of dimensional order of value 56, the spectrum would be an array of 29 dimensions of dimensional order '48'.
14. While in case of dimensional order of value 28, the fifth stage space spectrum would be an array of 29 dimensions of order 20
15. TCV (वेदः) = 20 and TCV (सामवेदः) = 48 and the organization of Sammved Samhita being of 29 Archiks will help us comprehend and appreciate the above format and features of split spectrums of dimensional orders of values 56 and 28 respectively.
16. One shall sit comfortably and permit the transcending mind to be face to face with TCV (जीवः) = TCV (धातुः) = 29
17. One shall sit comfortably and permit the transcending mind to be continuously remain in prolonged sitting of transand and to glimpse the Phenomenon of Ativahka Braham.
