Orb of the Sun
(04-10-2016)

1. Orb of the Sun is the source reservoir of the rays of the Sun.
2. Center of the orb of the Sun is the center of the Sun itself.
3. Center of the orb of the Sun is super mposed upon the center of the Sun.
4. Center of the Sun as center of domain of the Sun is as such is the center of the 6-space domain.
5. Center of 6-space domain is at the seat of origin of 6-space domain.
6. Center of 6-space domain is the origin fold of hyper cube 6.
7. The origin fold of hyper cube 6 is the manifested role of 7-space as 7-space content as origin fold.
8. 7-space content manifestation is the domain fold of hyper cube 7.
9. Domain fold of hyper cube 7 is the pole star .
10.   It is this interrelationship and co-existence of Sun (as 6-space body / 6-space content lump in the role of domain fold) and of pole star), (7-space body / 7-space content lump manifested and playing the role of domain fold of hyper cube 7 which deserves to be comprehended well and to be thoroughly appreciated for their complete imbibing to acquire deep insight and to attain full

enlightenment about the orb of the Sun as the source reservoir of rays of the Sun and also to know about the existence phenomenon within a ray of the Sun.

11.   Sanskrit formulation for which English rendering is being taken as ray of the Sun is 'Surya Rasmi' (सूर्य रश्मि).

12.   The formulation (सूर्य रश्मि) 'Surya Rasmi' deserves to be chased.

13.   One way to chase formulation (सूर्य रश्मि) 'Surya Rasmi' is in terms of its transcendental code value.

14.   The transcendental code value of (सूर्य रश्मि) 'Surya Rasmi' comes to be $13 + 17 = 30$.

15.   The transcendental code value 30 of (सूर्य रश्मि) 'Surya Rasmi' is parallel to transcendental code value of formulation 'संहिता' Samhita.

16.   Further as that structural set up of hyper cube 3 / cube is the set up of 8 corner points, 12 edges, 6 surfaces, 3 axes and 1 volume $(8 + 12 + 6 + 3 + 1) = 30$.

17.   Values range (1, 3, 6, 8, 12) deserve to be comprehended and chased for their progression thread, which amongst others is of the features (i) $0 + 1 = 1$, (ii) $0 + 1 + 2 = 3$, (iii) $0 + 1 + 2 + 3 = 6$, (iv) $6 = 2 + 2 + 2$.

18.   Values triple (2, 4, 6) is parallel to dimensional synthesis values sequence of single, double and triple spatial dimensions.

19.   Values quadruple (2, 4, 6, 8) is parallel to dimensional synthesis values of single, double and quadruple spatial dimensions.

20.   Value $12 = 6 + 6$, value $12 = 8 \times 3/2$, value $8 = (6, 6)$, as synthetic value of a pair of self referral (6-space) dimensions.

21.   The reach from value 8 to value 12 is parallel to the reach of formulation of transcendental code values 8 and 12 respectively.

22. There are 8 vasu, parallel to the 8 fold solid components of boundary of creator's space (4-space)

23. Value 12 is parallel to 12 fold transcendental boundary (5-space as boundary) of self referral domain (6-space).

24. There are 12 Adityas (Suns)

25. It also would be relevant to take note that transcendental code value of formulation Akash is 8.

26. Transcendental code value of formulation yog is 12.

27. Parallel number value formats of formulations Sun, Ray, Orb, Space as well deserve to be comprehended well.

28. NVF (Sun) = 54, NVF (Orb) = 35, NVF (Space) = 44, NVF (Ray) = 44

29. One shall revisit the reach of number value formats of 26 alphabet letters A to Z as 1 to 26 in parallel sequence and order.

30. One shall also revisit transcendental code values of 9 vowels as 1 to 9 respectively.

31. transcendental code values of 5 x 5 varga consonants rows are of parallel organization format of numbers values as

1	2	3	4	5
2	3	4	5	6
3	4	5	6	7
4	5	6	7	8
5	6	7	8	9

32. Four antstha letter accept quadruple TCV values (1, 3, 5, 7) in that sequence and order, four ushmana letter accept TCV value quadruple (2, 3, 6, 9) in parallel sequence and order.

33. Yama letter accept transcendental code values 9, 10, 11, 12, 13, 14, 15, 16 in parallel progression.

34. One shall sit comfortably and permit the transcending mind to glimpse this organization.

35.   One shall tabulate the technical terms.

36.   One shall up to date one's transcendental code values dictionary as well as number values format dictionary.
