## **Unity State origin**

**(05-10-2016)**

1. Unity state of origin of Sun deserves to be comprehended well.
2. Sun is the domain fold of hyper cube 6.
3. Hyper cube 6 is a four fold manifestation layer (4, 5, 6, 7) / 4-space as dimension, 5-space as boundary, 6-space as domain, 7-space as origin.
4. One may have a pause here and take note that each space (in terms of the space content) plays different role of which four of them are the roles of folds of manifestation layers.
5. 4-space as dimension fold leads to hyper cube 6 as of creative dimensional order.
6. 4-space as boundary fold leads to hyper cube 5 of solid dimensional order and creative boundary.
7. 4-space as domain fold of hyper cube 4 is of spatial dimension, solid boundary and transcendental origin.
8. 4-space as origin fold is fourth fold of the manifestation layer (1, 2, 3, 4) of hyper cube 3 as of linear order, spatial boundary and solid domain.
9. In general n-space as dimension fold shall be leading to hyper cube (n + 2).

10. N-space as boundary of hyper cube  $(n + 1)$ , n space as domain fold of hyper cube n and n space as origin fold of hyper cube  $n - 1$  are other different roles of n space.
11. With it,  $n = 7$  shall be sequentially leading us to hyper cube 9 with 7-space as dimension fold.
12. The four fold manifestation layer (7, 8, 9, 10) leads to summation value  $7 + 8 + 9 + 10 = 34$ .
13. This as such makes unity state order (7-space in the role of dimension) leading to structural set up of hyper cube 9 accepting one of its feature being of value 34.
14. One may have a pause here and take note that unity state origin (7-space in the role of origin of 6-space / origin fold of hyper cube 6) shall be as unity state order, leading us to structural set up of feature value 34.
15. One may have a pause here and take note that transcendence for the self referral domain (6-space as domain) at its origin (unity state origin / 7-space as origin) shall be bringing us face to face with the transcendence phenomenon of half of the structural value 34 being transcending through and leading us to the base fold (8-space in the role of base fold of 7-space as origin of 6-space domain of transcendental boundary (5-space as boundary) and of creative order (4-space as dimension)).
16. One may have a pause here and take note that 8-space accepts 17 geometries range.
17. Parallel to it hyper cube 8 is having 17 versions
18. Of these, 8 geometries are of negative signatures while remaining 9 geometries are of non negative signatures.
19. One shall further have a pause here and permit the transcending mind to glimpse this transcendence phenomenon of self referral domain (6-space as domain) through its unity state

origin (7-space as origin) and for its reach at natural state base (8-space in the role of base fold) of Brahman origin (9-space as origin of 8-space base).

20. One may have a pause here and take note that value 17 as transcendental code value 17 brings us face to face with formulations of transcendental code value 17 like आत्मा Atma, रश्मि Rashmi, शब्द Shabad, नाद Nad etc. etc.
21. It would be a blissful exercise to compile formulations accepting transcendental code value 17.
22. One shall sit comfortably and permit the transcending mind to glimpse 20 formulations of transcendental code value 17 and to imbibe the values and virtues of these formulations.
23. One shall also transcend through the relationship of these formulations of transcendental code value 17.
24. It would be blissful to glimpse and imbibe the values and virtues of relationship of formulations आत्मा Atma, रश्मि Rashmi, शब्द Shabad, नाद Nad etc. etc.
25. It would further be very blissful to take note that value 17 is the placement value of northern hemisphere of solar universe.
26. With it, one may initiate oneself for chase of the existence phenomenon of solar universe of its northern hemisphere within the सूर्य रश्मि Surya Rashmi (ray of the Sun).
27. One shall further glimpse and imbibe the values of this existence phenomenon as नाद Nad for which simple English rendering for the present may be accepted as sound frequencies carriers format reach.
28. Still further it would be very blissful to glimpse and imbibe this existence phenomenon of the values and format of Atma (soul of Being / जीव Jeev).

29. It would further be a very blissful exercise to glimpse and imbibe the values and virtues of formulation वर्ष varsh with simple English rendering the attainments and fulfillments of flow through rays of the Sun over a period of one full year.
30. It would further be very blissful to chase formulation भारत Bharat accepting transcendental code value 19 and as such transcendental code value of formulation Bharat Varsh comes to be  $19 + 17 = 36 = 18 + 18 = 6 \times 6 =$  transcendental code value of formulation प्रणवः Parnava which is further parallel to transcendental code value of formulations (Sri om).
31. One may have a pause here and take note that values pair (17, 19) are of format parallel to the format of (dimension fold, domain fold).
32. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of trans and to comprehend and to imbibe the values of the existence phenomenon of our solar universe within rays of the Sun with unity state origin being the source reservoir.
