

UNDERSTANDING MATHEMATICAL BASIS OF ENGLISH LANGUAGE

Week-18 (Fire, Sun)

Introductory

1. Fire, Sun is the central phase and stage of the sun mathematics five fold Transcendental range.
2. NVF (Fire, Sun) = (38, 54) = 92 = NVF (Reverse) is the central feature of this phases and stage
3. NVF (Sun) = NVF (fire cage) is the characteristics features of this phase.
4. NVF (Sun) = NVF (caged heat) is the basic feature of this phase and stage
5. This phase and stage of Sun mathematics permits chase along the format of three point fixation of surface as well as four point fixation of space
6. Fire, heat, light are the features which fit in realistic frame of existence phenomenon on Earth as the balancing factors of Earth to Sun range
7. The reach from third element 'fire' to second element 'water' and ahead to first element earth deserves to be chased in its both orientations
8. The reach from third element fire to fourth element air and fifth element space, in its both orientation as well deserves to be chased
9. The formulation 'fire' avails four letters namely 'F, I, R, E'
10. The parallel quadruple artifices are (6, 9, 18, 5).
11. The sequential chase may be along the formats (i) NVF (F) = 6 / 6-space
ii. NVF (I) = 9 / 9-space,
Here It would be relevant to note that along manifestation layer (6, 7, 8, 9) the reach of 6-space as dimension is going to be up till 9-space as origin
12. It would be relevant to note that the manifestation bag (1, 2, 3, 4) makes origin fold of a spatial order, and as such the reach for NVF (R) = 18 comes to be as $18 = 2 \times 9$.
13. Here it would be relevant to note that artifice 18 admit re-organization as $18 = 3 + 4 + 5 + 6$ which is parallel to four fold manifestation layers (3, 4, 5, 6) of hyper cube 5
14. The reach ahead to NVF (E) = 5 is a reach to Transcendental domain (5)
15. Here it would be relevant to note that the chase which initially started with NVF (F) = 6 / 6-space which is of a creative dimensional order (4-space as dimension) at the end has attained Transcendental domain NVF (E) = 5
16. It is this format and features of formulation 'fire' and its placements as third element in the Transcendental range of five elements (earth, water, fire, air, space) deserves to be chased.
17. Here it would be relevant to note that $3 + 3 = 6$ and $(3, 3) = 5$ as a synthesis value
18. Still further as that 3-space as dimension fold leads to 6-space as origin fold

*

Day 1: NVF (Fire, Sun)

1. The coordination and interlinking of fire and Sun as a pair of streams is the interlinking as (19, 27) and (19, 27) as that $38 = 19, 19$ and $54 = 27 + 27$.

2. Here it would be relevant to note that split of a sphere into a pair of hemispheres leads to placement values for pair of hemispheres respectively as 17 and 19
3. Further the split of a sphere as a linear order solid with NVF (linear) = NVF (Solid) shall be leading us to the split for three dimensional frame into a pair of three dimensional frames of half dimensions leading to values pair (33, 33)
4. It is this feature which deserves to be chased.
5. It is comprehension of this feature which shall be adding to our insight about the structural format for the middle of the range.
6. It is going to be of the format and features of a three point fixation of a line.
7. It shall be providing unification at the middle.
8. It would be relevant to note that NVF (unification) = 121
9. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of trans to chase format and features of artifice 121 as a two fold approach for the middle from either end
10. This, this way shall be putting a seal at the middle in terms of pair of dimensions of zero order.
11. It would be blissful to be face to face with format and features of the following NVF equation
 - i. NVF (A seal) = NVF (Fire) and
 - ii. NVF (A Fire) = NVF (Angel)
12. Still further as that NVF (Fire angel) = 37 + 39 = 76 = NVF (addition) = NVF (Minus) = NVF (Fire, fire).

Day 2: (Sun, Fire)

=====

1. The reach from Sun to fire is in continuity of a reach from pole star to Sun.
2. NVF (Pole Star) = NVF (Black matter) and NVF (black bag) = NVF (Angel), on their chase will help us have an insight about this chase phenomenon.
3. Still further NVF (Matter) = NVF (Fire angel), on its chase will add to our insight about the chase phenomenon of the flow of black matter from pole star up till its reach as black bag fire angle marking its presence as a fire
4. The flow of black matter from pole star to Sun manifests itself as Sun domain super imposed by Earth as its dimension.
5. A step ahead, the flow uptill the 'space' from the Sun as 'space bag' deserves to be chased.
6. Still further the chase step from 'space' onwards as 'air cage' which a step ahead leading to (Air, Bag) are the features which deserves to be chased sequentially.
7. It is the sequential chase for the fire for its reach up till 'water' with NVF (Water) = 67 = 29 + 38 = NVF (Black fire) and still ahead uptill 'Earth' with NVF (Earth) = NVF (Dead fire), whose chase in a sequential way shall be further enriching our insight about Sun mathematics of the phase and stage of 'Fire Sun'.
8. It would be a blissful exercise to chase 'fire sun' phase and stage of Sun mathematics in all orientations from fire to pole star as well as fire to earth and also from Earth to Fire and ahead from fire to pole star and back from pole star to fire and ahead to earth.

Day 3: (54, 38)

It would be a blissful exercise to chase artifices pair (54, 38) parallel to NVF values pair (54, 38) with illustrative formulation pair (Sun, Fire) to comprehend, appreciate and to imbibe and to have insight about this pair of artifices and about illustrative pairs of formulations, in terms of the group of words compositions of NVF values 54 and 38 respectively.

Here are reproduced these groups of formulations from ‘new testament’.
