## Section -5 Seven Elements range

### Introductory

1. Seven elements range permits chase along synthetic measuring rod of hyper cubes 1 to 7.
2. It also accepts chase format of synthetic measuring rod of hyper cubes 0 to 6.
3. It is this permissibility of chase along the format of measuring rod of hyper cubes 1 to 7 and simultaneously along the format of hyper cube 0 to 6, is the feature which deserves to be comprehended well.
4. The seven elements range permits expression as seven formulations range (Earth, Water, Fire, Air, Space, Sun and Pole star) parallel NVFs range comes to be 52, 67, 38, 28, 44, 54, 106.
5. It would be relevant to note that amongst this range only artifice 67 is of odd value format
6. With it the focus comes to be upon element 'Water'
7. The split of artifice 67 as '36, 31' takes us to formulations pair 'real cube'.
8. Accordingly, that way the focus shifts to 'real cube'.
9. Still further it would be relevant to note that NVF (Void cube) = 81 = NVF (Square)
10. With it the focus shifts to 'square' which is a representative regular body of 2-space.
11. It is also of the format of hyper cube 2.
12. The four fold manifestation layer (2, 3, 4, 5) of hyper cube 4 shifts the focus upon 4-space content manifesting as domain fold.
13. Here it would be relevant to note that artifices pair (2, 4) is parallel to format and features of (2-space as dimension fold, 4-space as domain fold)
14. Still further the artifices triple (0, 2, 4) shifts the focus upon the parallel format of 0-space, 2-space, 4-space coordinated as that 0-space plays the role of dimension of 2-space and of dimension of dimension of 4-space.
15. Parallel to it the artifices triple (2, 4, 6) shifts the focus upon 2-space in the role of dimension of 4-space and dimension of dimension of 6-space.
16. Here it would be relevant to note that  $2 \times 4 \times 6 = 48$  is parallel to linear dimensional equivalence for 6-space
17. NVF (Tree) = NVF (pole) = 48 and NVF (Tree bag) = 58 = NVF (two) = NVF (Star)
18. This as such shall be taking us the sequential steps of chase as 'tree' and ahead as 'tree bag' to 'pole star' with NVF (pole star) = 106 = 53 + 53 = NVF (Axis, Axis).
19. NVF (black matter) = 106 = NVF (Pole star), as such shall be taking us to 'black matter universe' with NVF (black matter universe) = 219 = 3 x 73 = NVF (format, format, format)
20. Still further NVF (black matter universe) = NVF (Discipline foundation) as such shall be requiring over transcending mind to glimpse through and to be

face to face with the inherent features of 'black matter' and 'black matter universe'.

21. Further it also would be relevant to permit the transcending mind to glimpse through and to be face to face with NVF (splinters) = NVF (universe) and further to chase 'splinters universe', as well as 'universe splinters'.

22. NVF (splinters universe) = 226 = NVF (Discipline 'God Discipline')

Week-21 (Earth, Polestar)

Introductory

1. NVF (Earth) = 52
2. NVF (Pole star) = 52 + 54 = NVF (Earth, Sun)
3. As such Earth as dimension fold and Sun as domain fold make pole star as a domain fold super imposed with dimension fold.
4. It is this feature of domain fold super imposed with dimension fold, which deserves to be chased
5. This super imposed set up shall be requiring sequential chase of Earth as NVF 52 sequentially acquiring features of NVF (53, 54, 55, 56, 57) as along five fold Transcendental range and further parallel to the format and features of solid dimensional frame of five dimensions of the Transcendental world (5-space)
6. With this sequential progression for Earth as of NVF values range (53, 54, 55, 56, 57) there would be a parallel reverse orientation progression of NVF values range 105, 104, 103, 102, 101
7. One may have a pause here and take note that the 'pole star' as domain fold (Sun) super imposed with dimension fold (Earth), by the above sequential progression steps there would emerge super imposition reversal as 'purification', in the format and features of 'subtraction'
8. Here it would be relevant to note that NVF (Subtraction) = NVF (A purification)
9. Further as that NVF (purification) = NVF (Pole star, Sun)
10. One may have a pause here and take note that this pairing role of 'pole star, sun of the format and features of 'purification' deserves to be chased for its complete comprehension and full appreciation.

Day 1: NVF (Earth, Polestar)

---

---

1. NVF (Earth, polestar) = 158
2. NVF (Earth, polestar) = NVF (Discipline two)
3. NVF (Earth, Polestar) = NVF (star Discipline)
4. Artifice 158 permits its splits as a pair of artifices, 79 in number, which is parallel to the range of NVF (nature) = 79
5. These 79 pairs of artifices, namely (79, 79), (80, 78), (81, 77), (82, 76), (83, 75), ---- (1, 157) deserve to be chased as formulations NVFs pairs.
6. These, as such shall be taking us to 158 groups of formulations of formulations range 1 to 157
7. One may enlist representative formulations of these groups and then to pair them to have an insight about the format and features of above splits as pairs
8. Illustratively (79, 79) = (Nature, Nature);

(80, 78) = NVF (Creator, ambrosia)

(81, 77) = NVF (Square, matter)

-----

9. Here it would be relevant to note that as  $158 = (\text{Earth, polestar})$ , as such  $52 = (\text{Earth})$  and  $106 = (\text{polestar})$  as well shall be permitting chase for 52 and 106 as split pairs
10. The split pairs for 52 shall be:  
 $52 = 26, 26 = (26, 27) = 24, 28) = \text{-----}$
11. Likewise  $106 = 53, 53 = (52, 54) = (51, 55) = (50, 56), = (49, 57) = (48, 58), = \text{----}$
12. The splits for  $106 = (\text{Pole star})$  deserves to be chased with full insight, as it shall be bringing us face to face with great values and virtues of this split mode of the formulations of the format and features of 'pole star'
13. Illustratively  $106 = 53, 53 = \text{Axis}$ , Axis focuses upon the pairing of axis and on the other hand also upon the split of domain as axis pair
14. Inherently here is the focus as to how the synthesis of a pair of axes leads to manifestation of domain
15. Further  $106 = (52, 54) = \text{NVF (Earth, Sun)}$ , which are of the format and features parallel to dimension fold, domain fold, the same as such focuses upon the super imposition set ups of domain folds super imposed upon dimension folds; a features of manifestation because of which the de-manifestation is going to be the requirement which is fulfilled by Transcendence resulting into purification of impurities due to hyper solid manifestation.
16.  $106 = 51, 55 = \text{Full, Sky}$  focuses upon the feature of attaining 'full' fulfillment while working with 'half Transcend' rule of 'Transcendence'
17.  $106 = 49, 56 = \text{NVF (void light)}$  focuses upon the feature of light as frame age, as much as that  $(\text{light}) = \text{NVF (Frame age)}$   
One may have a pause here and permit the transcending mind upon this feature of 'light' as 'frame age', as it will help us glimpse and to be face to face with 'florescence being carried by light, as essence riding the Transcendental carriers of 'Sunlight', which (essence) ultimately manifests as matter
18.  $106 = 49, 57 = \text{NVF (Axes, sleep)}$  focuses upon the feature of 'axes sleep', as the second consciousness state
19. Here it also would be relevant to note that axes awake with  $\text{NVF (axes awake)} = 90 = \text{NVF (Range, range)}$
20.  $106 = 48, 58 = \text{Tree, Two} = \text{NVF (Star tree)}$  focuses upon the star tree vis-à-vis earth tree  
 $\text{NVF (Earth tree)} = 100 = \text{NVF (boundary)} = \text{NVF (Discipline)} = \text{NVF (human frame)}$ , while  $\text{NVF Star tree} = 106$ ,
21. It would be relevant to note that the coverage range from 'Earth tree' to star tree is a unity range of NVF values (100, 101, 102, 103, 104, 105, 106), which is parallel to Discipline – 0, Discipline – 1, Discipline – 2, Discipline – 3, Discipline -4, Discipline-5, Discipline-6), which is further parallel to 0 Discipline, 1 –Discipline, 2- Discipline, 3- Discipline, 4-Discipline, 5- Discipline, 6-Discipline), which is still further parallel to values and formats of (0, 1, 2, 3, 4, 5, 6) , which shall be taking us to the format and features of a measuring rod synthesized by hyper cubes 0 to hyper cube 6
22. Like that the chase of split pairs for  $106 = \text{Pole star}$ , as well as their chase in terms of split pairs of  $52 = \text{Earth}$  and  $54 = \text{Sun}$  shall be enriching our insight about the coordination phenomenon of Earth, pole star.

Day 2: NVF (Polestar, Earth)

---

---

1. The chase from pole star to Earth as a chase of pair of axes (axis, axis) for a reach to Earth as a pair of hemispheres in terms of pair of 26 meters is going to be a chase in terms of pair of half 26 meters
2. It would be a blissful exercise to permit the transcending mind to continuously remain in prolonged sitting of deep trans and to glimpse through and to be face to face with the format and features of following artifices and NVF equations
  - i.  $NVF(\text{pole star}) = 106 = 53 + 53 = NVF(\text{Axis}) + NVF(\text{Axis})$
  - ii.  $NVF(\text{Axis}) = 53 = 57 + 26 = NVF(\text{Half god}) = NVF(\text{Half} - 26)$
  - iii.  $NVF(\text{Earth}) = 52 = NVF(\text{god, god})$
  - iv.  $NVF(\text{Sun}) = 54 = 27 + 27 = NVF(\text{half, half})$
  - v.  $NVF(\text{Pole star}) = NVF(\text{Half god, half god})$
3. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of trans and glimpse the inherent features of inner organization of the formulation 'Earth' as of NVF value 52 and of 'pole star' of NVF value 106 along, amongst others, the following NVF equations:
  - i.  $NVF(\text{point}) = NVF(\text{Earth go})$
  - ii.  $NVF(\text{A point}) = NVF(\text{Axis, go})$
4. The point as 'Earth go' and a point as 'axis go' deserves to be chased as static structured point, dynamic structure point and accelerated structured point.
5. The static state of earth and dynamic state of earth are the features which are deserved to be chased.
6. Earth as an integrated monad and earth as integrated pair of hemispheres deserves to be chased.
7. Earth in static state and earth in motion around static axes deserves to be chased.
8. Earth in motion of revolving around its static state axis and earth revolving around its dynamic state axis deserves to be chased.
9. Earth in static state and moon revolving around it, and earth itself in dynamic state and moon revolving around it deserves to be chased
10. One origin universe and two origins universe deserves to be chased.  $NVF(\text{one origin}) = 106 = NVF(\text{pole star})$
11.  $NVF(\text{Two origins}) = 149 = NVF(\text{one origin frame}) = NVF(\text{Axes Discipline}) = NVF(\text{Axis knowledge})$
12. NVF (pole star) as origin of our solar universe deserves to be chased.
13. Pole star as 7-space in the role of origin of 6-space (Sun) deserves to be chased.
14. Origin fold seat at the center / middle of the domain fold deserves to be chased.
15. Domain fold as frame of origin fold deserves to be chased.
16. Domain fold and origin fold together as set up of 'two origins' / 'one origin frame' deserves to be chased.
17.  $NVF(\text{Two}) = NVF(\text{one year})$  deserves to be chased.
18.  $NVF(\text{ear, ear}) = 48 = NVF(\text{Tree}) = NVF(\text{pole})$  deserves to be chased
19.  $NVF(\text{one year, one year}) = 58 + 58 = 116 = NVF(\text{four folds}) = NVF(\text{pole star bag})$  deserves to be chased.

\*

It would be a blissful exercise to chase artifices pair (106, 52) parallel to NVF values pair (106, 52) with illustrative formulation pair (pole star, Earth) to comprehend, appreciate and to imbibe and to have insight about this pair of artifices and about illustrative pairs of formulations, in terms of the group of words compositions of NVF values 106 and 52 respectively.

Here are reproduced these groups of formulations from 'new testament'.

=====  
Day 7: 102, 56  
=====

It would be a blissful exercise to chase artifices pair (102, 56) parallel to NVF values pair (102, 56) with illustrative formulation pair (two space, light) to comprehend, appreciate and to imbibe and to have insight about this pair of artifices and about illustrative pairs of formulations, in terms of the group of words compositions of NVF values 102 and 56 respectively.

Here are reproduced these groups of formulations from ‘new testament’.
