

# UNDERSTANDING MATHEMATICAL BASIS OF ENGLISH LANGUAGE

Week-23 (Fire, Polestar)

## Introductory

1. Polestar fire is of unique format and features
2. NVF (pole star fire) = 144 = NVF (Formulations)
3. NVF (pole star fire) = NVF (origin, origin)
4. NVF (pole star fire) = 144 =  $72 + 72 = 36 + 36 + 36 + 36 = 18 + 18 + 18 + 18 + 18 + 18 + 18 + 18 + 18$
5. All its chase shall be leading us to the unique set of format and features
6. Further  $144 = 16 \times 9 = 4^2 + 3^2$  shall be abdentatly reaching our insight of 'fires', particularly about
  - i. Pole star fire
  - ii. Sun fire
  - iii. Space fire
  - iv. Air fire
  - v. Water fire
  - vi. Earth fire
7. NVF (Sun fire) = 92 = NVF (Reverse) = NVF (space fire) = 82 = NVF (Factors)
8. NVF (Air fire) = NVF (Single) = NVF (Family).
9. NVF (Water fire) = 105 = NVF (Definition)
10. NVF (Earth fire) = 90 = NVF (range, range) = NVF (artifices)

### Day 1: NVF (Fire, Polestar)

---

---

1. NVF (Polestar fire) = 144, on its chase shall be leading us to split formulations pairs parallel to split NVF values pair like (1, 71) = (A sphere),  $2 + 70 = B$  Stop, and so on
2. Further chase shall be leading us  $144 = 1 + 143 = 2 + 142 = 3 + 141 = \dots$
3. Still further it shall be leading us to  $288 = 1 + 287 = 2 + 286 = 3 + 285 = \dots$
4. NVF (pole Star fire) = NVF (Origin, origin) = NVF (formulations) = NVF (space Discipline) and NVF (pole star) = NVF (axis, axis) and still further NVF (Origin) =  $72 = 53 + 19 = NVF$  (egg axis) = NVF (Axis).
5. As such the solid dimension of sphere format shall be of unity state values range (72, 73, 74, 75, 76, 77, 78) / (Origin ambrosia unity state).
6. NVF (axis) = NVF (line age) / NVF (Mind age) on its chase focus attention upon the formulation 'line' and group of formulations of NVF value 40.
7. Here it also would be relevant to note that artifices pair (40, 38) is of format and features parallel to (domain fold, dimension fold) of which illustrative formulation pair is (line, fire).
8. It is this feature of pairing format of (line, fire) which shall be taking us to NVF (Pole star) = NVF (origin fire).
9. With it NVF (Line) = NVF (hole) = NVF (cup) deserves to be chased to have proper comprehension of 'hole fire', 'fire cup', 'origin fire' and so on.
10. It would further help us comprehend and chase 'solid' as 'fire beam'.

11. 'Fire beam' takes the fire the range of artifices 1 to 26 parallel to the range of hyper cubes 1 to 6.
12. This way a reach from 59 to 105 and further reach from 58 to 106 on their chase shall be taking us to 'fire beam' to 'Transcendental beam' and further from 'two' to 'pole star' / 'pole two'.

=====  
 Day 2: (Polestar, Fire)  
 =====

1. Fire through 'pole' and fire through 'pole two' deserves to be chased.
2. Fire through 'line' and fire through 'hole' deserves to be chased.
3. Fire flow of linear order deserves to be chased.
4. Double fire flow as well deserves to be chased.
5. Solid fire flow deserves to be chased.
6. Fire cup deserves to be chased.
7. Fire pole deserves to be chased.
8. Earth fire, water fire, air fire, space fire, sun fire and pole star fire deserves to be chased.
9. Mind fire deserves to be chased.
10. Food fire deserves to be chased.
11. Light fire, light heat and fire heat deserves to be chased.
12. Transcendental fire transiting and transforming into self referral fire deserves to be chased.
13. Black matter fire transiting and transforming into Sun fire deserves to be chased.
14. Sun fire transiting and transforming during transcendence space deserves to be chased.
15. Space fire transiting and transforming while transcending through air deserves to be chased.
16. Fire while Transcending through air deserves to be chased.
17. Fire while Transcending through water deserves to be chased.
18. Fire while Transcending through Earth deserves to be chased.
19. Fire unfolding from within its unity state manifestation deserves to be chased.
20. Cube fire and sphere fire units deserves to be chased.
21. Black fire and black light deserves to be chased.
22. Light as half black deserves to be chased
23. Water as black fire deserves to be chased.
24. One shall sit comfortably and permit the transcending mind to continuously remain in prolonged sitting of trans and to glimpse the phenomenon of two fold Transcendence process of fire reaching pole star and black matter reaching fire.

 Day 3: (106, 38)  
 =====

It would be a blissful exercise to chase artifices pair (106, 38) parallel to NVF values pair (106, 38) with illustrative formulation pair (pole star, fire) to comprehend, appreciate and to imbibe and to have insight about this pair of artifices and about illustrative pairs of formulations, in terms of the group of words compositions of NVF values 106 and 38 respectively.

Here are reproduced these groups of formulations from ‘new testament’.
