Week – 11 Transcendence reach

Introductory

1. Transcendence reach of five fold Transcendental ranges with fifth fold as base fold of origin fold is of the format and features of extension of four fold manifestation layer into five fold Transcendental ranges by accepting (1/ 2) as a working unit during transcendence through spatial order 4-space origin
2. This feature of Transcendence through linear order domain (3-space) through its spatial order (4-space), for a reach ahead shall be requiring ‘half two’ for a reach into Transcendental creations set up.
3. One may have a pause here and take note that NVF (Half two) = 85 = NVF (Creation)
4. One may further have a pause here and take note that artifice 85 constitutes a reflection pair with artifice 58
5. Further as that reflection pair artifices (two), creation brings us face to face with the following $85 + 58 = 143 = 11 \times 13$, A matrix format for 12 place value system.
6. $143 = 132 + 11 = NVF$ (Meta physical life bed).
7. $143 = NVF$ (Two creation)
8. $85 = 5 + 8 \times 10$ which is parallel to the format and features of fixation of boundary of boundary of Transcendental domain within solid boundary of boundary within solid dimensional frame of Transcendental domain.
9. Here it would be relevant to note that 5 solid dimensions shall be contributing five components and 80 solid boundary components of all the ten creative boundary components of Transcendental domain to contribute 80 structural components.
10. $NVF \text{ (two)} = NVF \text{ (Black)} + NVF \text{ (Black)}$

Week – 11 Transcendence reach

Chase step 31	Transcendence reach
Chase step 32	Transcendental base
Chase step 33	Transcendental domains

1. Transcendence reach is uptill base of origin.
2. Transcendence takes place through the origin.
3. The origin of domain is of one degree higher dimensional order than that of domain itself.
4. This will help us comprehend as that the sequential reach through the origin is to be along the additional degree of dimensional order of the origin fold over the above of the dimensional order of the domain fold.
5. This feature of transcendence flow being only along and through the single dimension, deserves to be comprehended well.
6. One may have a pause here and take note that the manifestation are of four folds along and within 4-space, which is of a spatial order.
7. Here it would be relevant to note that 5-space plays the role of origin of 4-space.
8. 5-space is of a solid dimensional order.
9. The Transcendence that way in 4-space, as of the reach for the attainment of solid order is of the format and features of reach from 4-space creator's space (4-space) to 5-space (Transcendental domain).
10. Further it also would be relevant to note that this reach from spatial order 4-space to solid order 5-space, along one of the additional dimension is of the format and features of 'half' of the order (spatial order).
11. One may have a pause here and take note that NVF (Transcendence) = NVF (Transcend half).
12. One may have a pause here and take note that the transcendence reach, that way amounts to $NVF (\text{Transcendence reach}) = 160 = NVF (\text{Purification})$
13. One may further have a pause here and take note that $NVF (\text{reach}) = 35 = NVF (\text{Eye})$.
14. Further as that artifices pair (35, 53) with summation value 88 take us to formulation pair (eye, axis) and further to formulation triple (eye, axis, volume).
15. Still further as that $NVF (\text{volume}) = NVF (\text{space, space})$.
16. Still further $NVF (\text{Space}) = 44$ takes us to the organization format of artifice '44' which admits re-organization as $40 + 4 = 4 \times 10 + 4 \times 1$ which takes us to the coordination of ten creative boundary components of Transcendental domain (5-space) with creator's space (4-space) being the dimensional order of origin of 5-space.
17. Still further $NVF (\text{Half range}) = 62 = 31 + 31 = NVF (\text{Cube}) + NVF (\text{Cube}) = NVF (\text{Cosmic})$.
18. $NVF (\text{Transcendence reach}) = NVF (\text{Transcend cosmic})$
19. One may have a pause here and permit the transcending mind to blissfully glimpse the phenomenon of 'Transcendence reach' and to imbibe the values of Transcendental phenomenon through origin fold for reach at base of origin.

- 20.It would be blissful to note that
- i. NVF (Base) = 27 = NVF (Half)
 - ii. NVF (Base fold) = 83 = NVF (follow)

*

=====

Chase step 32 Transcendental base

=====

- 1. Base fold is the Transcendental base
- 2. NVF (Transcendental base) = 177 = NVF (Matter Discipline)
- 3. NVF (Transcendental base) = NVF (Purification bag)
- 4. It would be a blissful exercise to glimpse the features of NVF (hyper cube space) = NVF (impurity space) = NVF (Transcendental base) = NVF (Matter Discipline) = NVF (Purification bag)
- 5. One may have a pause here and permit the transcending mind to glimpse NVF (Transcendental base) = NVF (purification bag) = NVF (Christ Discipline)

*

=====

Chase step 33 Transcendental domains

=====

- 1. Transcendental domains are manifested 5-space content lumps.
- 2. NVF (Transcendental domains) = 225 = NVF (Transcendence Discipline)
- 3. It would be a blissful exercise to permit the transcending mind to continuously remain in deep sitting of trans to glimpse and to be face to face with the format and features of
 - i. Transcendental domains = NVF (Transcendental lights)
 - ii. NVF (Transcendental domains) = NVF (Transcendental series)
 - iii. NVF (Transcendental domains) = NVF (Universe mathematics)
 - iv. NVF (Transcendental domains) = NVF (Sunlight intelligence).
 - v. NVF (Transcendental domains) = NVF (Meditation intelligence)
 - vi. NVF (Transcendental domains) = NVF (Four folds refraction)
 - vii. NVF (Transcendental domains) = NVF (Manifesting geometry)

*
