Week – 20   Self referral state

Chase step 58   Artifice 6
Chase step 59   Hyper sphere 6
Chase step 60   Self referral format

Introductory

1. To chase of 'pure values reach', started with the reach of 'pulses'. It takes us to 'self referral format' as NVF (impulses) = NVF (sleep, sleep)
2. NVF (Format) = NVF (old) + NVF (new)
3. NVF (format) = NVF (old) + NVF (self)
                = NVF (old self)
4. NVF (Renewing) = 95 = NVF (Sleep fire)
5. One may have a pause here and take note that the 'sleep fire' is of renewing features.
6. Further it also would be relevant to note that NVF (Sleep) = NVF (Fires).
7. One may have a pause here and take note that 'sleep' as 'fires' takes us to 'sleep' as 'ions'
8. One may further have a pause here and take note that the surfacing of 'ions' during 'sleep' shall be leading us to 'sleep fires'.
9. Further it also would be relevant to note that NVF (Monad) + NVF (Monad) = NVF (Trimonad).
10. It is this feature of pairing of monads leading to trimonad, which deserves to be chased as 'self referral format' manifesting because of sleep, sleep states, which ultimately lead to pairing of 'space, space'.
11. One may have a pause here and take note that NVF (Sleep) = NVF (space age).
12. Still further as that NVF (sleep, sleep) = NVF (space age, space age) = NVF (volumme god) = NVF (impulses)
13. Still further, it also would be relevant to note that NVF (Self referral format) = NVF (Transcendence formats) = NVF (Tree transcendence area) = NVF (Transcendental tree).
14. One may further have a pause here and take note that NVF (hyper sphere – 7) = NVF (Transcendental)
15. Further as that NVF (Transcendental sphere – 6) = 149 = NVF (Axes Discipline) = NVF (inter-connected).

16. It is this phenomenon of inter-connected Discipline axes, which deserves to be chased.

Chase step 58   Artifice 6

1. Amongst others, the prominent features of artifice 6 is that it is parallel to the dimensional synthesis value of synthesis of triple dimensions of any order
2. The synthesis of pair of dimensions of order n, namely n, n synthesizes (n-2) values has the domain value
3. The synthesis of triple dimension of order n, namely n, n, n comes to be $(n+2) + n - 2 (n-2) = 6$
4. It is this feature of dimensional synthesis that triple dimension of any order always lead to value 6 which makes artifice 6 itself being the self referral artifice
5. Artifice 6 permit organization as $6 = 1 + 1 + 1 +1 +1+1$ an affine self referral range of six steps
6. It would be relevant to note that $6 = 3 + 3$
7. This feature as such would further help us comprehend, appreciate and to imbibe the values of self referral artifice – 6 as that 6-space plays the role of origin of manifestation layer (3, 4, 5, 6) and further as that 6-space also plays the role of origin of manifestation layer (6, 7, 8, 9).
8. One may have a pause here and take note that $9 = 3$ x 3. The pair of organizations (3 + 3), 3 x 3 and parallel pair of roles of 6-space as origin fold as of origin fold and also as of dimension fold will enrich our insight
9. One may further have a pause here and take note that a three dimensional frame permit split into a pair of three dimensional frames of half dimensions within creator's space (4-space of spatial order).
10. One may further have a pause and take note that NVF (hyper sphere -6) = 149 = NVF (Axes Discipline) = NVF (Discipline Axis)

<div align="right">*</div>

Chase step 59   Hyper sphere 6

1. NVF (Hyper sphere – 1) = 144 = NVF (formulation)
2. NVF (hyper sphere – 2) = 145 = NVF (Structure)
3. NVF (hyper sphere-3) = 146 = NVF (Manifestation)
4. NVF (Hyper sphere – 4) = 147 = NVF (Computation)
5. NVF (Hyper sphere – 5) = 148 = NVF (Scriptures)
6. NVF (Hyper sphere – 6) = 149 = NVF (Interconnected)
7. NVF (Hyper sphere – 7) = 150 = NV (Transcendental)
$$= NVF \text{ (Self referral area)}$$
8. One may have a pause here and permit the transcending mind to glimpse the format and features of the unity range of formulations (formulation, structure, manifestation, computation, scriptures, inter connected, Transcendental / self referral area).

9. NVF (Self referral format) = NVF (Self referral area tree)
10. One may have a pause here and permit the transcending mind to be face to face with 'self referral area tree'.
11. NVF (Earth Tree) = NVF (Discipline)
12. NVF (Artifices pair) / (52, 25) is a self reflecting pair of artifices with summation value 77 = NVF (Matter)
13. Here it would be relevant to note that NVF (Matter) = 77 is parallel to the self reflecting artifice '77', as much as that 'artifice 7' marks its presence at both places.
14. It is this feature of artifices pair (52, 25) that their summation value (77) as well is a self reflecting artifice
15. Scripture preserve the universe of Trees with roots upwards
16. The existence on the surfaces of both hemispheres on earth as well has manifestation of this feature when viewed from the other hemisphere
17. The reflection features as well has its manifestation, the split of a three dimensional frame into a pair of three dimension frame of half dimensions as well has a manifestation of this feature
18. The permissibility of super imposition of pair of orientations and parallel to it, super imposition of dimension fold upon domain fold of hyper cube 1 as well has a manifestation of this feature. The expression 28 = 3 + 5 + (3 x 5) as well has a manifestation of this feature, as being one of the features of this organization for artifice 28, which happens to be second perfect number. 6 = 2 x 3 = (-2) x (-3), as well has the manifestation of this feature.

==

Chase step 60: Self referral format

==

1. It would be a blissful exercise to permit the transcending mind to continuously remained in prolonged sitting of trans and glimpse the feature of self referral format of:

I.   Pair of segments of human brain
II.   Pair of hemispheres set up of Earth
III. $0 + 0 = 0 = 0 \times 0 = (-0) \times (-0)$
IV.   Pair of orientation of an interval
V.   Pairing of object and image
VI.   Reflecting pair of artifices of double digit numbers of ten place value system namely (01, 10), (02, 20), ---- .
VII.   Double digit self reflecting artifices ranges (11, 22, 33, 44) and (55, 66, 77, 88, 99)
VIII. $2 + 2 = 2 \times 2 = (-2) \times (-2)$
IX. $2^4 = 4^2$
X. $(2^3, 3^2)$

*
