## FOUNDATION COURSE

Week – 23 Pole star

Chase step 67	Origin of solar universe
Chase step 68	Pole star
Chase step 69	Unity state existence format

### Introductory

1. Pole Star is at seventh step of the range 'Earth to Pole Star range'.
2. With it artifice 7 and parallel to it the format and features of 7-space and of hyper cube 7, as such get associated with the organization values of Pole Star.
3. Vedic formulation ध्रुव 'Dhruv' with TCV (ध्रुव) = 17 is parallel to the placement value of the northern hemisphere, which further is parallel to the range of 17 साम / Sama.
4. TCV (साम) = 15 and TCV (ध्रुव) = 17.
5. Artifices pair (15, 17) is of the format and features of (dimension fold, domain fold).
6. Artifice 15 permits re-organization as  $15 = 1 \times 3 \times 5$  which is parallel to the dimensional order of Transcendental domains (5-space).
7. Scripture preserve the enlightenment about devotee, designated 'ध्रुव', who attained eternity of the order of 'Pole Star'.
8. The eternity attainability of 'ध्रुव' had become possible for him by accepting mantra 'ॐ नमो भगवते वासुदेवाय' Om Namoh Bhagwate Vasudevey which is of the range of 12 syllables namely (i) ॐ (ii) न (iii) मो (iv) भ (v) ग (vi) व (vii) ते (viii) वा (ix) सु (x) दे (xi) वा (xii) य.
9. TCV values range of this syllables range comes to be (i) 16 (ii) 8 (iii) 16 (iv) 9 (v) 4 (vi) 9 (vii) 10 (viii) 9 (ix) 4 (x) 10 (xi) 9 (xii) 2 with summation value  $16 + 8 + 16 + 9 + 4 + 9 + 10 + 9 + 4 + 10 + 9 + 2 = 106 = \text{NVF (Infinity)} = \text{NVF (Axis)} + \text{NVF (Axis)} = \text{NVF (Pole Star)}$ .
10. Here it would be relevant to note that domain boundary ratio of hyper cube 6 comes to be  $A^6: 12 B^5$ .
11. Further as that 5-space plays the role of dimension of 7-space / dimension fold of hyper cube 7 is of the format and features of 5-space, which itself is of being the sold order set up, hence the  $\text{NVF (Axis)} = 53$ .
12. Here it also would be relevant to note that the artifice 53 with artifice 3 at unit place and artifice 5 at next place value and the synthesis value of a pair

of solid dimensions being 5 will help us comprehend, appreciate and to imbibe the organization format and features of this set up in terms of which one may have insight about these features of systems and processes of the format of hyper cube 7 and attainability of transition for it from the organization format and features of hyper cube 6.

Chase step 67      Origin of solar universe

---

---

1. It is the interrelationship of 6-space and 7-space during manifestation processes which shall be helping us comprehend the role of 7-space as origin of 6-space.
2. सूर्य Surya as of the format and features of 6-space / hyper cube 6 and as the self referral range (1, 2, 3, 4, 5, 6) accepting Sathapatya measuring rod for chase of 6-space as domain fold shall be helping us to have insight about the reach at the origin of 6-space as a reach at the origin of the solar universe.
3. Here one may have a pause and permit the transcending mind to be face to face with the organization format and features of transcendence range (13, 14, 15, 16, 17) with summation value  $13 + 14 + 15 + 16 + 17 = 75 = NVF$  (Series).
4. Further as that artifices pair (73, 75) and parallel to it formulations pair (format, Series) will further help us deepen our insight about this transcendence range.
5. Still further it also would be relevant to note that TCV (सूर्य) = 13 and TCV (ध्रुव) = 17 = TCV (साम) will further help us deepen our insight about the flow of (साम) from Pole Star as a range of 17 Sam of northern hemisphere into the 13<sup>th</sup> geometry of 6-space.
6. Here it also would be relevant to note that 6-space accepts 13 geometries range while 8-space accepts 17 geometries range.
7. One may have a pause here and take note that artifices pair (6, 8) and parallel to it the spaces pair (6-space, 8-space) are of organization format and features parallel to (dimension fold, domain fold).
8. Still further it also would be relevant to note that TCV (एक) =  $6 + 2 = 8$ .
9. Still further it also would be relevant to note that artifices pair (6, 8) is also parallel to the organization format and features of (spatial boundary of 6 components of 3-space), solid boundary of 8 components of 4-space.
10. Still further, it also would be relevant to note that  $NVF$  (Joint) =  $NVF$  (One) +  $NVF$  (One).
11. One may have a pause here and permit the transcending mind to be face to face with the above features together with the following feature:
  - i.  $6 = 3 + 3$
  - ii.  $8 = 3 + 5$

While  $6 = 3 + 3$  is the increase value of 3-space as domain, and also as in the role of dimension, which is to provide the measure, for the measuring rod of Transcendental domain (5-space).

- iii. Still further  $8 = 3 + 5$  is parallel to the super imposition of dimension fold upon the domain fold which is of the dimensional order  $1 \times 3 \times 5 = 15$ , while 7-space accepts precisely  $2 \times 7 + 1 = 15$  geometries range, of which there would be 7 non positive geometries and 8 non negative geometries.

12. The self referral range (Earth, Water, Fire, Air, Space, Sun) as manifestation layers and parallel Vedic systems formulations (पृथ्वी, आपः, अग्निः, वायुः, आकाशः, सूर्यः) on their chase shall be helping us comprehend, appreciate and imbibe the different features of the solar universe with Pole Star as its origin.
13. One may have a pause here and take note that each domain fold together with its dimension, boundary, origin, base of origin and format of origin even when shall be marking their presence simultaneously, the same also shall be surfacing and deciphering out their individual format and features because of the origin of the domain.
14. It is the origin of the domain, which here is Pole Star of organization format and features of 7-space of Transcendental order (5-space as dimension) and further the boundary of solar universe (6-space) being of Transcendental features (5-space in the role of boundary) as such the role of boundary shall be leading to whole range of applied values parallel to the pure values format and organization of the origin fold.
15.  $NVF (\text{Universe}) = 113 = NVF (\text{Age Discipline}) = NVF (\text{Discipline Age})$  will further help us deepen our insight about the 'Universe'.
16.  $NVF (\text{Solar Universe})$  focuses upon 'Universe Center' as one cube universe.
17. One may have a pause here and take note that chase of these and other connected formulations will help us have desirably insight about the solar universe as one cube universe.
18.  $TCV (\text{ब्राह्मण}) = TCV (\text{ब्राह्म}) + TCV (\text{अण}) = 28 + 15$ , and still further the organization permissible for 28 as  $15 + 13$ , will help us comprehend, appreciate and to imbibe the values of these and connected formulations
19. Here it would be relevant to note that  $28 = 15 + 13$  and artifices pair 13, 15 being of the organization format and features (dimension fold, domain fold) will further help us have an insight about 'ब्राह्मण'.
20. One may have a pause here and take note that the role of 5-space of solid dimensional order of value  $1 \times 3 \times 5 = 15$  for the creator's space and its domain permitting surfacing in terms of 13 edged cube will further help us have an insight about this organization of 13<sup>th</sup> edge leading to the Transcendental origin of creator's space, which itself is to play the role of dimension of solar universe.

---

---

Chase step 68      Pole star

---

---

1. Organization format and features of pole star as 7-space / hyper cube 7 / 15 geometries range / as Transcendental order (5-space in the role of dimension) and further as that NVF (Transcendental) = NVF (Self referral) fulfill our solar universe with whole range of Transcendental as well as self referral systems and processes of tremendous pure and applied values for our existence within human frame as well as for existence within and without frames
2. Vedic mathematics, Science & Technology chases solar universe on above parallel Transcendental and self referral systems and their processes.

\*

---

---

Chase step 69      Unity state existence format

---

---

1. Unity state existence within human frame is the existence at level of unity state of consciousness.
2. From waking state to unity state of consciousness, there is unity state of seven steps long range which manifest Transcendental dimensional frame for eternity of solar universe.
3. The chase of Transcendental dimensional frame of pole star and parallel to it the unity states range of consciousness for existence within human frame is the end fruit of the Discipline of Vedic mathematics, Science & Technology.
