SATHAPATYA MEASURING ROD

(HYPER CUBES 1 TO 6)

Fifth Week : Day 7

A day to raise queries and to seek answers

1. This last day of the fifth week is ment for raising queries and seeking answers.
2. One shall read and reread this week course content to have comparison of the syallabi of post graduate Mathematics courses of different universities.
3. One shall reach at a consolidated table of topics being covered at all the universities these days.
4. One shall project the directions in which all these topics are ultimately leading us too.
5. One may pose to oneself as to whether these values of Mathematics are sufficient to equip us with an appropriate mental state to dispel our ignorance about the universe in which we live.
6. To be specific, one may pose to oneself as to whether with the existing values of Mathematics we can work out the Existence Phenomenon in its entirety of Earth to Sun Range.
7. Here one may also avail an opportunity to glimpse and project vedic model of Sathapatya measuring rod format for chase of Existence Phenomenon of Earth to Sun range of our solar universe with pole star as its origin.
8. One shall further avail this oppotunity to pose to oneself as to whether our present day organization of knowledge can be re-organized as a single Discipline of knowledge availing single alphabet and whether and to what extent Vedic Systems of organization of knowledge can be of help to us.
9. One shall enlist one's queries and the same may be shared.
